SR 1440	<b>Summary:</b> We discovered that the CSU08 database has instituted Oracle security profiles. It is apparent that one of the profile options is to expire passwords every 90 days. When the passwords expire database links are broken, subsequently, many reporting jobs are also broken. <b>Resolution:</b> A separate and new profile has been created with a lifetime of 364 days. Since these accounts are non-interactive, the 364 days are within the DISA security standards. By creating the new profile and assigning the PIMDTEST and RESUMIX accounts to it. The quarterly disruption in service to the WHS/HRD user community will be prevented.	WHS	CSU

Remedy 14113	<p><b>Summary:</b> Using the Personal Work list. Under "Attachments", there are two icons, side by side, but they do not have labels. The User has to click the icons to find out the one on the left is the Routing History and the one on the right is the actual RPA.</p> <p><b>Resolution:</b> The labels have been provided for the icons.</p> <p><b>Note. Partial Fix.</b> It appears that opening the closed RPA in the workflow inbox behaves differently than the functionality in the Civilian inbox. The Civilian inbox allows the user to "View Response" while it looks like the "Respond" button is available to the Workflow inbox user. When you attempt to view a closed RPA from the Work list it will give you an error that it was attempting to open an RPA that hadn't been refreshed (our custom fix to the workflow inbox).</p> <p><b>Oracle Patch</b> 3262159, TAR 3479816.996, Bug Number 2802006.</p>	Navy	In Box
Remedy 14133	<p><b>Summary:</b> Routing of RPA action s must be restricted by User/Routing Group.</p> <p><b>Resolution:</b> Within the Batch routing process the user should now be able to:</p> <ul style="list-style-type: none"> <li>· Select any Person from within the Routing Group they are assigned</li> <li>· Select any Group box from within the Routing Group they are assigned</li> </ul> <p>The Routing Group information is available in the People-Enter Maintain-Extra Information- Federal Workflow Routing Groups.</p> <p><b>Note: Partial Fix.</b> The Routing Group information is available in the People-Enter Maintain- Extra Information- Federal Workflow Routing Groups does not restrict based on the Applications Business Group restriction.</p> <p><b>Oracle Patch</b> 3262159, TAR 4071952.995, Bug Number 3036506.</p>	CPMS	In Box

Remedy 14167	<p><b>Summary:</b> Oracle Correction to Within-grade (893) correction to step increase does not allow change to step field.</p> <p><b>Resolution:</b> The correction process now allows the Within grade correction to input/change the "Step" field.</p> <p><b>Note: Partial fix.</b> This only works if NOA 893 is retrieved after the correction is done to the previous action. If you retrieve the 893 prior to correcting the previous action the 893 is not refreshed when opened for the users in box.</p> <p><b>Oracle Patch</b> 3333633, TAR 3108505.996, Bug Number 3263056.</p>	CPMS	Corrections
