

PATCH 57.4

Scheduled to be released to the field, Sunday, June 19, 2005 at 9:00 A.M. CST

Contains Database and Application Server modifications.

REPAIRS

| PR/CRT NBR | REPAIR | Initiated By | Critical Function |
|-------------------|---|---------------------|--------------------------|
| TD 9908 | Summary: Two messages (CIV_PSN_RESPONS_LVL_B and CIV_PSN_RESPONS_LVL_C) have FEDERMENT instead of FEDERAL GOVERNMENT in the text when validating a position in the position screen. Resolution: Modified the message text to change 'Federment" to "Federal". | CPMS | Positions |
| TD 9817 | Summary: Received forms error "FRM-42703: No such parameter named G_QUERY_FND exists in form GHRWSCOM" when using Complaints Tracking, EEO Complaints. Resolution: Created a script to take off the Complaints Tracking menu from all responsibilities except EEO Responsibilities. | CPMS | Other |
| TD 10025 | Summary: In order to comply with Security Scans and criteria, modifying roles in the CSU databases. Resolution: Initial creation of new roles in the CSU databases. Modified the application administration role to remove select any table privledges. Modified the CSU select role to add/select on SECV views. | LMIT | CSU |
| Remedy 20432 | Summary: Receiving incorrect grade information for NOA 893 and 760 actions. Resolution: Previously, if you processed a retroactive personnel action that changed an employee's Grade, the Correction (NOAC 002) of any intervening actions would fail due to the new Grade not being reflected in the Correction actions. Now, you will see the appropriate Grade on the Correction action From and To Position records. | NGB | Corrections |
| Remedy 22171 | Summary: The Key Emergency Essential Value becomes null after 571 and 570. Resolution: Created a script to correct the "Key Emergency Essential Employee" from null to a '0' in the current and history tables for APPR and TECH employees. Process log name is 'RR22171'. Modified code to prevent the null of "Key Emergency Essential Employee" for Conversion to Appointment actions. | DoDEA | Other |

| | | | |
|--------------------------|--|-------|-------------|
| Remedy 22231 | <p>Summary: Oracle Correction to 894 changes grade back to previous grade.</p> <p>Resolution: Corrected with Remedy 20432. Previously, if you processed a retroactive personnel action that changed an employee's Grade, the Correction (NOAC 002) of any intervening actions would fail due to the new Grade not being reflected in the Correction actions. Now, you will see the appropriate Grade on the Correction action From and To Position records.</p> | Army | Corrections |
| Remedy 22329 | <p>Summary: Report RP680 erroneously produced when an employee has a current appraisal.</p> <p>Resolution: Modified the code to ensure correct appraisal record is retrieved even if the effective date is null.</p> | AF | Reports |
| Remedy 22539 | <p>Summary: The CPDF Dynamics Report sends a Pay Rate Determinant after processing a 002 Correction to NOA T352.</p> <p>Resolution: Modified code to flow null for position 104 (Pay Rate Determinant) for correction to NOA T352.</p> | DoDEA | Reports |
| Remedy 22702 | <p>Summary: Receiving error CIV_MISC_803_001_A when changing the retirement code.</p> <p>Resolution: Modified code to make it possible to change employee (who is not covered by FERS) retirement plan from FICA to CSRS. Also modified related error messages for better understanding.</p> | Army | RPA/52 |
| Remedy 22716 | <p>Summary: The Processed Record screen displays partial data after a Mass Update has been processed.</p> <p>Resolution: The Mass ATL Update Processes allow multiple rows for the same person to be in a single process. When the completed records were written to the "Processed Records" table the code was only inserting one row for each unique person. This caused a variety of problems when viewing the processed records (e.g. missing rows, invalid rows). Modified the code to allow for multiple rows for the same person to be written to the "processed records" table and made sure that rows that processed in error would not be written to this table and would remain in the preview table.</p> | CPMS | Acquisition |
| Remedy 22734 | <p>Summary: The CSU Awards menu does not populate any data when accessing it.</p> <p>Resolution: Changed the form code to display data when awards screen is accessed from the menu of other screens.</p> | AF | CSU |
| Remedy 22794 | <p>Summary: US Federal Performance Appraisal update in NAF Records.</p> <p>Resolution: Limiting the "US Fed Appraisal Flag" to be set to 'Y' for Appropriated and NGB Technicians only, to ensure NAF and LN employees are bypassed.</p> | CPMS | Appraisals |
| Remedy 22798/ TD 9820 | <p>Summary: Error message is launched saying "FRM-40010: Cannot read form /opt/applmgr/CIVDT/11.5.7/civdodhr/forms/US/COBOL.fmx".</p> <p>Resolution: Forms for "Cobol Extract" and "Generate MS Word Letter" are no longer supported. Created script to delete menu entries, exclusions, form functions and form definitions.</p> | CPMS | Reports |

| | | | |
|------------------|---|------|-------|
| Remedy 22799 | <p>Summary: No Security for EEO Reports/Records. Resolution: Reports AA/EEO Breakdown Report and EEO Form 462 Report are tied to not only US Federal HR Manager but also to other responsibilities. Removing it from one responsibility is not possible. As per the recommendation in the Remedy, "EEO items addressed be removed from this patch and not be made available to the components at this time". Disabled the concurrent programs for these reports. A part of the modification to remove access to "Complaints Tracking and Complaints People" is included in TD 9817.</p> | CPMS | CATS |
| CRT 04-11658-DoD | <p>Summary: A script has been prepared that will identify those RPA that have 'NOT_ROUTED' to 'UPDATE_HR_COMPLETE' for routing history in Reg03. Process Log Program Name: CRT-04-11658. Note: This script will be a recurring data fix until modification to the procedure by the Oracle Fed Group.</p> | AF | Other |
| SCR 04-12019-DoD | <p>Partial Fix. The changes to the Pay500 file are not included in the Patch and will be made available in Patch 57.4.1. Summary: This is worked in conjunction with FED 3644210 delivered in Family Pack J. For RPA - Added two segments Pre Tax Waiver (Information23) and Child Equity Court Order Date (Information24) to Benefits Appointment Information for 1XX and Benefits Information for 5## NOA Codes. Pre Tax Waiver will default to 'No' for Appointments. Added business rules and new error messages to validate child equity court order date updates. Modified Element controller to flow NOA 'HBP' to payroll when pre tax in Health Benefits element is manually updated. Changed position 86 of Pay500 format from FILLER to 'PRE TAX WAIVER'. A value of 'W' is written to position 86 when pre tax waiver value is equal to 'Yes' and 'R' when pre tax waiver value is equal to 'NO'. Added column HBPT_IND to CIVDOD_INT_IVRS_UPD table. Modified IVRS process to update HR Health Benefits Element - Pre Tax Waiver and Child Equity Court Ord Date. Associated business rules to write reject messages to the table when validating Child Equity Court date updates. Fed delivery in Family Pack J to insert Child Equity Court Ord Date in Health Benefits Element works only when creating a new element. Created a script to insert input name for employees with existing Health Benefits record. Program name is SCR04-12019-DOD. Also, created another script to update pre tax waiver for all employees that have a Health Benefits record with a value 'No' Program name is 'SCR04-12019-DOD_PTW_UPD_NO'. Also another script will update Pre-tax waiver for select employees from a DFAS spreadsheet to 'Yes'. Program name is</p> | CPMS | FEHB |

| | | | |

| CRT-05-28961-DoD | <p>Summary: Modified code to Establish a 'Pre-NSPS Spiral Indicator' in the position record. Two List Of Values has been associated with this data element that would contain the various spiral values and an NSPS Conversion Flag in Person Extra Info and Position Extra Info columns. Since implementation of NSPS is a long-term project, a mass process has been developed to enable Components to populate this field. This mass process includes standard features such as ability to enter selection criteria, an area to input the Pre-NSPS Spiral Indicator value to be populated, Preview capability, select/deselect capability, capability to purge data in a preview and ability to delete the projected mass process if it has not been executed. Users also have the capability to manually add, change or delete data in this field. Modified Position Quick Copy rules to include NSPS Spiral Information to be quick copied to the new position ONLY if the 'Organization' block info is not changed. Modified RPA auto-population rules to allow auto-population of NSPS information from Person/Position to RPA Extra Info for NOA Codes specified.</p> | CPMS | NSPS |
| CRT 05-31505-CPMS | <p>Summary: Added additional entry fields to the Pay Table Identifier Mass Change Process. There are 5 entry fields for Pay rate determinant and five entry fields for grade. Each of the pay rate determinant fields are validated against a set list of values. Extracted the script to promote these changes. Modified the procedure to add the new selection criteria to restrict the records.</p> | CPMS | Mass Conversions |
| CRT 05-31684-DoD | <p>Summary: Removed reject message for TSP Status "S". When changing the status to "S" (Stop), the previous status no longer has to be "W" or null. The edit was removed from the manual element entry update edit routine as well as the IVRS interface edit routine.</p> | CPMS | TSP |

| | | | |
|------------------|---|------------------|---------------------------|
| CRT 05-31941-AFX | Summary: Elimination of TSP Business Edit. Removed edit for TSP element. When changing the status to S - Stop or T - Terminated, the employee eligibility date is no longer required. The edit was removed from the manual element entry update edit routine as well as the IVRS interface edit routine. | AF | TSP |
| NAF Only | | | |
| Remedy 18781 | Summary: Duplicate entries in the LOV on pg 1 of RPA actions. Resolution: Partial Fix. Modified the code to eliminate duplicate entries from the Employee Last Name List of Values on the RPA form. The modification for PR18781 applies to NAF employees only. The modification for all other employees (Fed form) requires a TAR request that has been sent to the helpdesk. | NAF Army | RPA/52 |
| Remedy 22711 | Summary: When the AF NAF History Transmittal Form prints the value "1" for the Retirement Code, it incorrectly shows under Retirement Participation Code. Resolution: Corrected the problem where the NAF Retirement Plan Code and the NAF Retirement Participation Code were interchanged. | NAF AF | Reports |
| Remedy 22724 | Summary: A NAF Change in the Occupational Code does not flow new code to payroll. Resolution: The code was modified to process Occupational Code changes (N094) for NAF employees where it was previously not processing through the NAFI Payroll Interface. | NAF AF | RPA/52 |
| Remedy 22778 | Summary: NAF Employee's name duplicating in list of values (LOV). Resolution: Modified the code to eliminate duplicate entries from the Employee Last Name List of Values on RPA form. | NAF AF | RPA/52 |
| Remedy 22828 | Summary: AF NAF RPA DDF populates the date incorrectly. Resolution: The code has been modified to populate the NAF TSP/401K date in the PA extra Info location correctly. | NAF AF | Benefits and Entitlements |
| SCR 05-26046-ARM | Summary: A script has been created to display the Place Person Menu under CIVDOD NAF Supervisor (Army) Responsibility. A business rule has been created that will disallow update of Place Person RPA actions to HR. | NAF Army | Other |
| LN Only | | | |
| Remedy 20477 | Summary: Receiving "Invalid values" error on LN RPA DDF from civilian inbox. Resolution: The procedure was modified to commit the new form instance initializing session before opening up the RPA from the civilian inbox. This also fixes problem identified in PR 22507. | Navy LN Korea | RPA/52 |

| | | | |
|-----------------------------------|---|--------------------|----------|
| Remedy 22507 | <p>Summary: Pacific Group box error - Value invalid for the flex field segment.</p> <p>Resolution: The procedure was modified to commit the new form instance initializing session before opening up the RPA from the civilian inbox. This also fixes problem identified in PR 20477.</p> | Army LN Pacific | In Box |
| Demonstration Project Only | | | |
| CRT 05-30753-NVY | <p>Summary: NVY 391, Automatic Update of DLEI during the NRL Mass Payout Process. Modified the NRL Dual 894 process procedure to populate the Date Last Equivalent Increase (DLEI) for the NRL Mass Payout Process.</p> | Navy | NRL Demo |
