|--------------|--|--------------|-------------------|
| Remedy 20614 | <p>Summary: Users at Army are unable to build user ID's within CSU app.</p> <p>Resolution: Modifications to the CSU switchover scripts used by the Army and AF to resolve this problem. The modifications include:</p> <ul style="list-style-type: none">a. The switchover will wait until refresh has completed.b. The switchover will only continue if it target database has been refreshed more recently than the source database.c. The switch to the new database happens immediately (new users can be created without any adverse affects).d. Once listener has been switched the users are processed.e. Only accounts that are different between the two databases will get modified (this will speed up the process).f. All operations are within their own sub-block and all errors are handled (this will prevent the switchover from failing if something goes wrong with a user account). | DSTI | CSU |
