EXITS admin will take action on your e-mail notices of FTP actions and will reply back when your files have been transferred to Oracle processing. An upgrade to our EXITS FTP application while working to promote secure FTP to production, has disabled our custom code link which enables our FTP to Oracle transfers. This does not impact production EXITS activities. We are working to resolve as soon as possible and apologize for the added step in testing that involves FTP actions.</p>	AF	Other
