

PATCH 57.3.1

Scheduled to be released to the field, Wednesday, June 08, 2005 at 4:00 P.M. CST

Database modification.

REPAIRS

PR/CRT NBR	REPAIR	Initiated By	Critical Function
Remedy 18891	Summary: Poor performance of Cancellations/Corrections to access records. Resolution: Customized the Fed view to increase performance when retrieving employee names. Although initial problem was reported in Corrections & Cancellations form, change should improve performance application wide where this view is used.	AF	RPA/52
