Work

**“ I started teleworking
2 days per week last year.
My supervisor was very clear
about my goals, and I’ve found that
my productivity and customer service
levels have actually improved,
and my day is less disrupted. ”**

DoD teleworks because it helps keep our people mission ready. It enhances continuity of operations. It helps attract and retain employees. And it reduces our environmental impact.

Telework works at DoD. Teleworkers are more engaged, less stressed, and far more productive.

DoD employees telework on a regular schedule or just during specific situations—each according to the demands of the mission.
