PR 9009	<p>Summary: Cancellation of CAO/Transfer Action does not always work.</p> <p>Resolution: Corrected where a problem existed in the CAO/Transfer process when a person tries to cancel a request that has not successfully completed the 'SUBMIT REQUEST' action. The 'CANCEL ACTION' appeared to work, but in reality did not cancel the action. It left records in the CAO/Transfer support tables that caused problems when anyone tried to perform a new CAO/TRANSFER action on the same person. When the user saved the new record, they got the following error: 'Already Processed Record'. Changed the forms (both CAO and Interagency Transfer) so that when the 'CANCEL ACTION' button is pressed, and if no supporting record is in the table, then all records in the other supporting tables will be deleted for this individual.</p>	CPMS	CAO

CRT 03-7388-DoD	<p>Summary: Made the following changes:</p> <p>(1) Added code to the secure view build that will add a record to new table civ_resp_relationship when a new secure view is created. This is important because any future synchronizations of secure view responsibilities and DDFs will be based on what is stored in this table.</p> <p>(2) Added a new concurrent program named "Template and Secure View Responsibility Report" that will show the secure view responsibility names and the template responsibility name that was used to create the secure view. This report will show only records that are in table civ_resp_relationship.</p> <p>(3) Added a new concurrent program named 'Synchronize responsibilities and DDFs'. which does one of the following depending on the action requested:</p> <p>SYNCRONIZE</p> <p>Associates any new DDFs to existing Secure View Responsibilities based on the template responsibility used at the time of the Secure View creation. This action will only occur for records that are in table civ_resp_relationship. The steps for running this action are:</p> <ul style="list-style-type: none"> => Log in as a responsibility that is under report group 'US Fed HR Reports and Process' => Go to Path Processes and Reports à Submit Processes and Reports => Click Single Request, OK => Select 'Synchronize responsibilities and DDFs' from drop down list for process 'Name' => Select 'SYNCRONIZE' from drop down list for 'Action Required' => Click OK -- Note. The 'Template Responsibility' and 'Secure View Responsibility' parameters should not be filled in for this action. => Click SUBMIT button <p>This is something that should be done after every code patch.</p> <p>CREATE RELATIONSHIP</p> <p>This will add a record to table</p>	CPMS	Secure Views

	<p>civ_resp_relationship. Under normal circumstances, this shouldn't be required, but if for some reason the secure view responsibility and it's associated template responsibility are not in table civ_resp_relationship, this is a way to add them to the table. The steps for running this action are:</p> <ul style="list-style-type: none"> => Log in as a responsibility that is under report group 'US Fed HR Reports and Process' => Go to Path Processes and Reports à Submit Processes and Reports => Click Single Request, OK => Select 'Synchronize responsibilities and DDFs' from drop down list for process 'Name' => Select 'CREATE RELATIONSHIP' from drop down list for 'Action Required' => Select the template responsibility from the drop down list for 'Template Responsibility' => Select the secure view responsibility from the drop down list for 'Secure View Responsibility' => Click OK => Click SUBMIT button
