

PATCH 50.17

Scheduled to be released to the field the weekend of October 18-19, 2003

Database changes only.

REPAIRS

PROBLEM REPORT NUMBER	REPAIR	Initiated By	Critical Function
TD 8014	<p>Summary: Attempted to correct an appointment action processed in 11i and received an error "APP-PER-52994: A value has been provided for a non-enabled or non-existent descriptive flex field segment. (SEGMENT=REI_INFORMATION12).</p> <p>Resolution: Oracle corrected this problem in TAR 2889845.996, Bug Number 2924172.</p>	CPMS	Corrections
TD 8045	<p>Summary: Unable to request an NPA through Processes & Reports.</p> <p>Resolution: Corrected where the performance on the lookup was poor and the NPA report and Batch NPA report both had performance problems. Corrected in TAR 2957895.996, Bug Number 2815799</p>	CPMS	Reports
TD 8449	<p>Summary: When creating a 570 NOA was able to code data on all pages/tabs of RPA. But when clicked on Extra Information to continue filling out the required fields, received message: "APP-PER-52994.</p> <p>Resolution: Corrected the 570 NOA process to prevent the Error message. Corrected in TAR 2889845.996, Bug Number 2924172.</p>	CPMS	Conversion
TD 8603	<p>Summary: Oracle Correction to NOA 115 Partially corrected work schedule.</p> <p>Resolution: Removed the edit that checks for GHR Extra Info to be not null before copying the value from pa request table so that it copies NULL part time hours to position extra info. Bug Number Bug 773851.</p>	Army	Corrections
TD 8835	<p>Summary: Value Sets use SYSDATE instead of session effective date.</p> <p>Resolution: Value Sets changed to use the session effective date instead of the SYSDATE. Corrected in TAR 2955585.995, Bug Number 2898819.</p>	CPMS	Other
TD 8844	<p>Summary: Not able to change element 'Health Benefits' entries.</p> <p>Resolution: List of Values are now displaying for Health Benefits entry values. Corrected in TAR 29366078.996, Bug Number 2919912.</p>	CPMS	Pay

TD 9038	<p>Summary: Incorrect CPDF edit on Pay Plans FO, FE, FP - CPDF edit 440.02.3.</p> <p>Resolution: The CPDF edit 440.02.3 did not contain all the conditions that were required. The following conditions were added to this edit: If pay plan is EJ, Then agency/sub-element must be HS. If pay plan is FE, Then agency/sub-element must be HS. If pay plan is FP, Then agency/sub-element must be HS. If pay plan is LE, Then agency/sub-element must be HSAD. If pay plan is PD, Then agency/sub-element must be HSAD or HSBG. If pay plan is FO, Then agency/sub-element must be in AG10, AM, CM55, IB, PU or ST. If pay plan is FP, Then agency/sub-element must be in AG10, AM, CM55, IB, PU or ST. If pay plan is FE, Then agency/sub-element must be in AG10, AM, CM55, IB, PU or ST.</p> <p>Corrected in TAR 3057993.996, Bug Number 2996653.</p>	CPMS	CPDF Edits
TD 9340 9373 9397 9393	<p>Summary: LISTGEN module: Security List Maintenance (11i) in DT is erring with the following: Concurrent Manager encountered an error while running SQL*Plus for your concurrent request 185534. Review your concurrent request log and/or report output file for more detailed information.</p> <p>Resolution: Family Pack F overwrote the table referenced in value set 'GHR_US_POS_ORGANIZATION_ID'. Changed the organization table referenced in the value set back to HR_ALL_ORGANIZATION_UNITS. (Also TD 9393, 9373, and 9397)</p>	CPMS	Secure User
TD 9343	<p>Summary: Error found in Process Log for JPAS process. Could possibly be pre-FPF.</p> <p>Resolution: Modified code to fix ORA-01422 error. The condition that appeared to cause the error, more than one row in the CIVDOD_JPAS_DATE table with the same value, will not cause the process to fail.</p>	CPMS	Other
TD 9352	<p>Summary: CUBA LN - Pay500 is flowing missing and/o invalid data.</p> <p>Resolution: Modified the package CUBA_PAYROLL_PKG to fix CC 135 and CC 186. The values for CC 135 and CC 186 were not properly placed in 11i code.</p>	Navy LN Cuba	Payroll Interface
TD 9359	<p>Summary: AGR Secure view problems - Extra Position Info DDFs missing.</p> <p>Resolution: As CIVDOD AGR manager is main Template per_info_sec.sql will load required DDF's then we need to run Concurrent Program (Synchronize responsibilities and DDFs) to take care of AGR Secure View's.</p>	NGB AGR	Agency Unique

TD 9364	<p>Summary: While logged on under CIVDOD AGR MANAGER under secure view for Pennsylvania tried to do Separation from AGR Status action on an AGR employee and received Trigger error "FRM 40735".</p> <p>Resolution: Corrected the value error trigger error for NGB actions. Reapplied customizations on top of Family Pack F changes.</p>	NGB AGR	Agency Unique
TD 9376	<p>Summary: There are two Mass awards under mass actions.</p> <p>Resolution: Family Pack F overwrote the table referenced in value set 'GHR_US_POS_ORGANIZATION_ID'. Changed the organization table referenced in the value set back to HR_ALL_ORGANIZATION_UNITS.</p>	AF	Awards
Remedy 13634	<p>Summary: Signature not populating name in block 50 of NPA after update HR.</p> <p>Resolution: Changed the code in GHR_SF52_API to populate the approving officer name and title (Signature not populating name in block 50 of NPA after update HR).</p>	DLA	NPA/50
Remedy 13635	<p>Note: Partial fix. Performance issues will be corrected in Patch 51.</p> <p>Summary: Poor CSU Refresh Performance.</p> <p>Resolution: Made the following changes.</p> <ol style="list-style-type: none"> 1. Moved load codes after CSUDB refresh driver process to start jobs sooner. 2. Removed parallelism from analyze. 3. Added timestamps. 4. Moved pay element pull forward in script. 5. Remove unused pac_sep_idx1. 6. Added date notification sent to CSUDB GHR PA Routing history Index. 7. Changed to 4 percent, remove parallelism. 8. Removed separations, etc, to separate files (for CMIS compatibility). 9. In the load package, changed the order by and PVCS header. 10. The base_users_create script is for making all the regions look alike. 	CPMS	CSU

Remedy 13644	<p>Summary: Performance problems in Cancellation/Correction Query.</p> <p>Resolution:</p> <ol style="list-style-type: none"> 1. Added the Find window, so when user opens the form, the user will be prompted with the standard Find window 2. Removed the (query details) checkbox, so the user will have to click in the Details block before the user will see any RPA/NPA details 3. Changed the form text to 'Completed', 'Pending', and 'All' 4. Fixed the Re-route, Cancellation, and Correction buttons, so that the user will only have the correct buttons enabled, depending on the view chosen (i.e. Completed, Pending, All) 5. Researching the ability to click on any one of the Views (Completed, Pending, All) before populating the Details. This may not be possible because of the type of code changes, i.e. using a Cursor, instead of a View when first retrieving the Details. If we go back to using Views then we will have the same performance issues. TAR 3259592.995, Bug Number 3090524. 	AF	System Fundamentals
Remedy 13749	<p>Summary: Resumix New hire job is failing on the Region side.</p> <p>Resolution: Corrected the problem where an HR trigger is calling a procedure with a commit while the applicant new hire process has an open database connection between HR and Resumix. Corrected by TAR 3259849.995, Bug Number 3088891.</p>	Army	Resumix
Remedy 13807	<p>Summary: Extremely slow response time RPA, Part A blocks 5 and 6.</p> <p>Resolution: Enhanced the performance when the profile option Enable Cancel Query was set to yes. Corrected by TAR 3304725.995.</p>	DLA	System Fundamentals
Remedy 13876	<p>Summary: No Valid Responsibilities Warning on Logon.</p> <p>Resolution: Corrects where Users were encountering the APP-FND-01931 error during the 11i Stress Test. Corrected by TAR 3331586.995.</p>	Navy	Roles and Responsibilities
Remedy 13979	<p>Summary: DCPDS not reading Retained Grade area (Error on Update to HR).</p> <p>Resolution: Modified package to only update GHR_RETAINED_GRADE if the NOA is in '702', '740', '866', '892', '893', OR '894'.</p>	Navy	Other
Remedy 14025	<p>Summary: Cannot Build any Foreign Service Positions.</p> <p>Resolution: Cannot build any Foreign Service positions. The Position Extra Info, Poes_information13, "FS Comp Category", which is a required data element for Foreign Service Positions, had the wrong validation clauses in the value set. Modified value set CIVDOD_FS_COMP_CAT_V.</p>	IBB	Position

Remedy 14056	<p>Summary: Find People takes 10-15 minutes to display list of names.</p> <p>Resolution: The slow response times have been adjusted to where it is taking less than a minute to process the query. Corrected in TAR 3259592.995</p>	DLA	System Fundamentals
Remedy 14066	<p>Summary: 11i TALX error reports.</p> <p>Resolution: Code has been changed to prevent invalid AS_OF_DATE values from being placed into the TALX output file. This single change also corrects the blank EMPLOYEE_STATUS_CODE values when a valid AS_OF_DATE is available.</p>	CPMS	TALX
Remedy 14076	<p>Summary: Mass Realignment - No LOV for Appropriation Code 1.</p> <p>Resolution: This problem was the result of the Enable Cancel Query. Corrected by TAR 3304725.995.</p>	AF	Mass Realignments
Remedy 14134	<p>Summary: Geographic Literal missing from Location LOV on Position Build.</p> <p>Resolution: The Geographic literal is now available. Corrected in TAR 2707476.995, Bug Number 2729347.</p>	CPMS	Position
Remedy 14141	<p>Summary: FEHB Plan for code 'M5' has incorrect clear text.</p> <p>Resolution: Corrected the clear text from "California Care" to "Blue Cross-HMO". Corrected in TAR 2877900.999, Bug Number 2785292.</p>	DeCA	Benefits and Entitlements
Remedy 14145	<p>Summary: Tried to input a work schedule change and we receive an error message. APP-37259: CPDF Edit #450.03.2.</p> <p>Resolution: CPDF edit 450.03.2 was incorrectly interpreted. The edit was changed as follows: If Pay Rate Determinant Code is 4, and the Pay Plan is GM or GS, then the Prior Pay Rate Determinant Code must be 4 or blank, Or Nature of Action Code must be 5##, 702, 703, 740, 741 and Prior Pay Rate Determinant Code must be 5, 6, E, F, J or K.</p> <p>Corrected in TAR 2472096.999, Bug Number 2468911.</p>	DeCA	CPDF Edits

<p>Remedy 14146</p>	<p>Summary: Cannot Process NOA 894 for Individuals on Retention Allowance.</p> <p>Resolution: When the user selects a position that contains a pay table with a minimum and maximum pay value (as opposed to a Grade and Step pay value), the RPA will only open the Basic Salary field for user input. (Previously all pay fields were opened for user input when a position with a Pay Range was selected.) Once the user enters the Basic Salary amount, the normal pay calculations will then continue. That means that once the Basic Salary is entered, the Locality Pay, Adjusted Basic Pay, Other Pay (Retention Allowance, AUO, and Availability Pay), and Total Pay will all be recalculated. The user no longer has to enter all the RPA Pay amounts manually. This TAR fix is part of the pay range pay calculations fix. The following will be delivered in the Pay Range Pay Calculations fix:</p> <ol style="list-style-type: none"> 1. When a user selects a Position (in the To Position field) the Basic Pay field will open for user input 2. The user entered Basic Pay amount will be validated against the minimum and maximum amounts of the pay range 3. Then normal pay calculations will continue (i.e. the existing pay calc code will take over, and attempt to calculate the Locality Pay, Adjusted Basic Pay, Other Pay [Retention Allowance, AUO, Availability Pay], and Total Pay) 4. Every time the RPA contains a position with Pay Range Pay Table type, the Basic Pay field will be open for user input and the Retention Allowance amount will be recalculated <p>The TAR requested that a user hook be provided in the RPA form that would allow the user to enter the Other Pay values as appropriate because the Other Pay values were not changing when Basic Pay changed. With this pay calculations fix, the Other Pay values (including Retention Allowance) will be recalculated when the Basic Pay is changed. Thus the application is not going to provide a 'hook' to allow users to open the Other Pay window for manual input.</p> <p>Corrected in TAR 2889711.996, Bug Number 2396514.</p>	<p>CPMS</p>	<p>Pay</p>
---------------------	---	-------------	------------

Remedy 14149	<p>Summary: CPDF Status Report Not Flowing Data from Element Entries.</p> <p>Resolution: From the OPM requirements document titled "The Guide to Central Personnel Data File Reporting Requirements" (latest is Update 7, dated June 2002), Under Section B. Status Data Submissions, Part 2. Data Element Coverage, Subsection b(10). Locality Adjustment (page 17), the following: (10) Locality Adjustment is the adjusted basic pay minus basic pay. It is always represented as an annual dollar amount. If the employee's duty station or pay system is excluded from locality pay, report locality adjustment as blanks (positions 130-134 on the CPDF Status report). This means two things: 1. If the Pay Plan is not eligible for Locality Pay calculations (i.e. Pay Plan is AL, CA, ES, EV, FB, FG, FJ, FM, FX, GG, GH, GM, GS, IP, IE), then Locality Pay must be reported as blanks - OR - 2. If the Locality Pay Area is '99' then the Locality Pay amount must be blank. Locality Adjustment is now reported for all employees within the locality adjustment areas. Therefore, any employee within a Locality Pay Area of '01' through '98' (or not in locality pay area of '99') has a Locality Pay amount displayed in the report. Corrected in TAR 2052171.996, Bug Number 2407080.</p>	DoDEA	Reports
Remedy 14161	<p>Summary: Cannot Temporarily promote an employee on Retained Grade.</p> <p>Resolution: You can award a temporary promotion step to employees on retained grade. These employees are then eligible for Within Grade Increases, QSI and pay adjustments based on the temporary promotion step. Corrected in TAR 2976458.995 and 1254907.996, Bug Number 1929470.</p>	DLA	Promotions
Remedy 14168	<p>Summary: NMN printing on Recruit/Fill RPA when no name is selected.</p> <p>Resolution: Corrects where it prints NMN on the RPA when you can choose NOA Recruit/Fill select vacant position and save action print icon and do not select a name. Corrected in TAR 156976.999, Bug Number 2015739</p>	CPMS	RPA/SF52
Remedy 14175	<p>Summary: Query by SSAN pulls wrong records.</p> <p>Resolution: Corrects when you query employee by SSN in the Find Person window. The query will now select the SSN entered. Corrected by TAR 3094328.995, Bug Number 2169089.</p>	Navy	Person

Remedy 14207	<p>Summary: Problem with Folders when using People By Assignment Folder.</p> <p>Resolution: The List Employees by Assignment form returns records for all assignment types even if Assignment status is specific in Find criteria. This is not true if the FOLDER is queried by using F11 and Ctrl+F11. This Corrects the problem by modifying the default where condition for the query. Bug Number 2666212.</p>	Navy	In Box
Remedy 14215	<p>Summary: People, Enter & Maintain - People Having More Than 1 Record.</p> <p>Resolution: The loop that was causing the multiple selections has been corrected. Corrected in TAR 3094328.995, Bug Number 2452820.</p>	DoDEA	Other
Remedy 14217	<p>Summary: Receive Error APP-38010: Can't blank out From POS detail, on NOA 002.</p> <p>Resolution: Users were receiving errors when attempting to Correct an Appointment action if the employee had intervening actions that occurred on the same effective date as the Appointment action. The error occurred: APP-GHR-38010: You cannot blank out the From Position Details. Now users may Correct Appointment actions, regardless of having multiple actions processed on the same Effective Date as the Appointment action. Corrected in TAR 3088977.999, Bug Number 2953815.</p>	Army	Corrections
Remedy 14225	<p>Summary: Cannot cancel a Conversion to Appointment.</p> <p>Resolution: Users were unable to process a Cancellation (NOAC 001) of a Conversion (NOAC 500-599), and were receiving upon update HR: APP-PAY-06346: This person does not have a current period of service. Previously the Cancellation of the Conversion actions, both Conversion of employees, and Conversion (re-hire) of applicants was updated similarly. Now these two actions have been clarified on the Update HR process so that this error can be avoided. Corrected by TAR 3216031.995, Bug Number 2780976.</p>	CPMS	Cancellations
Remedy 14226	<p>Summary: Assignment Status incorrect after processing a 292 (RTD) action.</p> <p>Resolution: An NOA 292 (RTD) can now be processed with the assignment status changing to the previous assignment status Temporary Appointment NTE. Corrected by TAR 3253950.995, Bug Number 2839332.</p> <p>Note: Currently broke. Receiving Trigger Error. New TAR 3352234.996 logged.</p>	CPMS	RPA/52

Remedy 14228	<p>Summary: FEHB Code PW Clear text is wrong in the System.</p> <p>Resolution: The clear text for Health Plan PW has been corrected from "Kaiser Permanente" to "Capital District Physicians Health Plan-Albany/Cooperstown Area". Corrected by TAR 2916994.996, Bug Number 2886911.</p>	CPMS	Benefits and Entitlements
Remedy 14229	<p>Summary: Prior Data Error Message and Missing Data on Page 3 of 002/702 RPA.</p> <p>Resolution: Can now process a 002/702 without the data elements blank and grayed out on Page 3 (Employee and Position Data tab). Corrected by TAR 2911855.995, Bug Number 2589851.</p>	DoDEA	Corrections
Remedy 14230	<p>Summary: Error - View of Workflow Inbox after adding Column "TO".</p> <p>Resolution: Can now update a personalized view and under the "Search Query to filter data in the work list". Corrected by TAR 2976529.995, Bug Number 2951594.</p>	DoDEA	In Box
Remedy 14286	<p>Summary: Cannot retrieve an NPA or RPA to view or print.</p> <p>Resolution: This problem was not isolated to NPA and RPA. The same problem appeared when trying to update Education (People > Enter & Maintain > Special Information > Education). Two LOV (Academic Institution Name and Instructional Program Code) have long lists that require the same limitation of only the first letter and % before you could see the table. This problem has been corrected. Corrected by TAR Number 3299680.995.</p>	DeCA	RPA/52
Remedy 14382	<p>Summary: LOV for AGENCY GROUP only displays 6 AR entries.</p> <p>Resolution: This problem was not isolated to NPA and RPA. The same problem appeared when trying to update Education (People > Enter & Maintain > Special Information > Education). Two LOV (Academic Institution Name and Instructional Program Code) have long lists that require the same limitation of only the first letter and % before you could see the table. This problem has been corrected. Corrected by TAR Number 3299680.995.</p>	Army	Position

	<p>Summary: The Retained Grade To Date defaulting has been changed as follows:</p> <ol style="list-style-type: none"> 1. Default the Date To (effdate + 2 years) minus 1 day. for example, if user enters the Start Date of the retained grade record to be 10-Jan-2002, the End Date must be defaulted to 9-Jan-2004. 2. Allow the user to change the defaulted End Date to a date less than the two years minus one day for example, if End Date defaults to 9-Jan-2004, allow the user to change this date, to 8-Jan-2003. 3. Include the validation that if the user changes the End Date, that they are not changing it to a date that is greater than two years (effdate + 2 years) plus one day. For example, if the user enters the Start Date of 10-Jan-2002, we default the End Date to 9-Jan-2004, the user cannot change the date to a date greater than two years, thus cannot reset the date to 11-Jan-2004 or greater. TAR 2256595.995, Bug Number 2467303. 		
CRT 02-296-DoD		DoD	Retained Grade
	<p>Summary: Position Not-to-exceed (NTE) dates - Revised for Air Force. The following changes were made.</p> <ol style="list-style-type: none"> 1. For unencumbered positions, resets the end date of 30-sep-2004 back to data before 03-9397-afx update. 2. For all encumbered but eliminated positions prior to 24 Sep 2004, extend the position to 30 sep 2004. 3. Resets position status to 'VALID' if 'VALID' prior to the update. 		
CRT 03-9702-DoD		AF	Other
NAF Only			
	<p>Summary: Army and AF NAF POEI Information 21 Using Secure Views.</p> <p>Resolution: Family Pack F overwrote the table referenced in value set 'GHR_US_POS_ORGANIZATION_ID'. Changed the organization table referenced in the value set back to HR_ALL_ORGANIZATION_UNITS. (Also TD 9340)</p>		
TD 9393		Army and AF NAF	Other
	<p>Summary: No List of Values for Position.</p> <p>Resolution: Reinitialized position id for each record so that we will get values in all DDFs while building a position.</p>		
Remedy 14182		AF NAF	Positions
	<p>Summary: NAF-28 Report printing with Pay Plan and Grade.</p> <p>Resolution: Field 1C was showing the data from per_grades.name. Changed Field IC to only show the last 2 characters.</p>
