

PATCH 57.2

Scheduled to be released to the field, Sunday, May 22, 2005 at 9:00 A.M. CST

Database changes and Application Server changes.

REPAIRS

PR/CRT NBR	REPAIR	Initiated By	Critical Function
TD 10039	Summary: A problem will come up when you do an appointment to a WB pay plan / IB agency position with a step 01. You will get a WGI element with only DLEI filled in. Resolution: Added rows to the CIVDOD pay plan waiting periods table to handle appointments to WB/IB positions with step 01.	LMIT	Appointments
Remedy 20191	Summary: Acquisition Career Level is not being refreshed on the CSU. Resolution: The following changes were made to the code. 1. Changed the size of CPCN column in the form to match the size of the data. 2. Changed code to set the topmost tab page of the canvas to Acquisition 1 in enter query mode only.	NGB	CSU
Remedy 20737	Summary: Receiving Suspense Booking Errors. Resolution: Modified the code to remove unwanted reports AFRET, AF98, ACQD1, CIVLN_AA064, CIVLN_EXTMRE and CIVLN_WGICL from suspense process.	AF	Suspense
Remedy 21225	Summary: No Flow to Payroll not working on Cancel Actions. Resolution: Modified the code to check payroll output flags on original transaction as well as the correction/cancellation transaction. This will ensure that payroll action (flow / no flow) the user requested in chain of events will be honored even with a cancellation/correction. This correction has been applied to both Reconstruct History and DOD Corrections.	DLA	Cancellations

Remedy 21272	<p>Summary: Representational Time is incorrect in CSU.</p> <p>Resolution: Added code to match the pay period and the representational time element entries to ensure a match in the current employee pay data and the historical employee pay data.</p>	DeCA	CSU
Remedy 21640	<p>Summary: Suspense Booking error in the Process Log for Navy.</p> <p>Resolution: Modified the code to remove unwanted reports AFRET, NAF98, ACQD1, CIVLN_AA064, CIVLN_EXTMRE and CIVLN_WGICL from suspense process</p>	Navy	Reports
Remedy 21845	<p>Summary: FEGLI Change to 'A0' errors out.</p> <p>Resolution: Modified code to fetch value for type of employment from history as of the RPA effective date.</p>	AF	Benefits and Entitlements
Remedy 21979	<p>Summary: Errors when using EBIS to update TSP value.</p> <p>Resolution: See TD 9862. Maximum allowable TSP contribution was calculated based on TSP Date (TSR) instead of effective date (TS1). But TSR is null when amount has a value. Changed to calculate max amount based on TS1 instead of TSR.</p>	DFAS	Benefits and Entitlements
Remedy 22220	<p>Summary: CSU Web Screens display incorrectly after the Security Patch/Jinitiator.</p> <p>Resolution: Changed the formatting of the screens so the text does not overlap in the change password, system administration and logon forms.</p>	CPMS	CSU
Remedy 22222	<p>Summary: Future TSP Catch up contributions was not updating in payroll correctly, nor was there a capability to purge the TSP Catch up contributions.</p> <p>Resolution: System was corrected to correctly update payroll when the TSP catch up contributions are end-dated, deleted, and purged.</p>	AF	Benefits and Entitlements
Remedy 22230	<p>Summary: Report "PROBC" is printing incorrect Organization information.</p> <p>Resolution: Added code to display placeholder columns for organization in HR.</p>	NGB	Reports

Remedy 22242	<p>Summary: Process log errors - 'REPORT SUBMISSION FAILED.</p> <p>Resolution: Modified the code package to remove the call to Report PSN01 as an encumbered report and this will not allow insert/update to PER_BOOKINGS table. PR 20434 fixed the PSN01 report to only print unencumbered position data. Errors in process log are being caused by old PSN01 report entries, previously staged when report was being ran as encumbered, in the PER_BOOKINGS table. Script will remove old PSN01 entries from the PER_BOOKINGS table and record log details. Process log name is "R22242".</p>	AF	Reports
Remedy 22272	<p>Summary: Payroll Recon - DoDEA has mismatches on the NAF Retirement Indicator.</p> <p>Resolution: Modified the code to eliminate erroneous mismatches between DCPDS and Payroll values for NAF Retirement Indicator when values are Null. The code now forces a compare of DCPDS and Payroll values using a zero "0" versus asterisks "*".</p>	DoDEA	Pay Recon
Remedy 22285	<p>Summary: REG11 error mensa.chrcs.army.mil: ORA-01555 caused by a SQL statement.</p> <p>Resolution: Made modification of the Civilian RESUMIX refresh program to fix the error ORA-15555. The Refresh process is now running nightly without error between DT and RESUMIX.</p>	Army	Unix
Remedy 22288	<p>Summary: CUN NOA flowing in wrong order for TSP Catch-Up Contributions.</p> <p>Resolution: Modified the code to ensure NOAC CUN (TSP Catch-up Contribution) flows to payroll after gain action. Repaired the code to ensure transaction timestamp reflects correct information.</p>	AF	Benefits and Entitlements
Remedy 22323	<p>Summary: US Fed Language SIT update errs out 'Duplicate value'.</p> <p>Resolution: Modified the code to allow corrections to SIT "US Fed Language". The duplicate entry check will only be enforced for new entries to SIT area.</p>	AF	Other

Remedy 22353	<p>Summary: Receiving error CIV_CRTL_PAYROLL_500_5 when validating position.</p> <p>Resolution: Corrected the raising of error CIV_CRTL_PAROLL_500_5 when validating the position. Added a condition to handle the gain/loss properly when retrieving position information based on the correct effective date.</p>	Navy	Position
Remedy 22375	<p>Summary: BUS code is being truncated in CSU reports.</p> <p>Resolution: Changed the size of the Bargaining Unit Status field from 4 to 6 characters in the reports Organizational Roster, the Personnel/Position Roster, and the Bargaining Unit.</p>	Navy	CSU
Remedy 22377	<p>Summary: ATL Mass Update sets Certification Suspense inconsistently.</p> <p>Resolution: Added code to insert an Employee Basic Acquisition Information EIT when that employee's position Acquisition Program Information EIT is updated. Set the warning message indicator to FALSE at the beginning of the certification update routine so only those processed rows flagged during the logic will trigger the CIV_ATL_CAREER_CERT_WARN_2 message.</p>	AF	Acquisition
Remedy 22398	<p>Summary: Data is missing when Exporting the Processed Records Report.</p> <p>Resolution: Added SSAN and Employee Name to all processed records folders so when the data is exported these columns, which identify the records being updated, are included.</p> <p>Process Log Name: There will be multiple process log entries for each of the different types of folders. They all begin with: TD9840%.</p>	CPMS	Other
Remedy 22399	<p>Summary: Position Acquisition Mass Update produced a blank Acquisition Employee Career Brief.</p> <p>Resolution: Modified code to suppress print of the Career Brief when updating Acquisition Position Information and the position is unencumbered.</p>	AF	Other Mass Actions

Remedy 22400	<p>Summary: Acquisition Brief produces a blank ACQ-WARRANTS area when the "TO DATE" is input.</p> <p>Resolution: Modified code to suppress print of the Career Brief when processing Acquisition Warrant Data if the TO_DATE is the only segment being updated.</p> <p>Note: The code delivered in this patch is a partial fix. The correction for the new problem where the Career Brief is printing for an ACQ Warrant Data Update when only the TO_DATE is changing will be delivered in a future patch.</p>	AF	Other Mass Actions
Remedy 22401	<p>Summary: Receiving an Oracle Error when processing a mass upload for the Acquisition Basic Data.</p> <p>Resolution: Modified code to allow the manual update of an employee's Basic Acquisition Information and an update to the same employee's Basic Acquisition Information using the Mass ATL Update Process in the same day without getting the error PER_52094A_PEA_INV_DATE_COMB.</p>	CPMS	Other
Remedy 22407	<p>Summary: Incorrect functionality of Mass Update to Acquisition Career Level SIT.</p> <p>Resolution: Added check to see if the certification code input matches the employee's current career field. If not then the mass process is inserting new certifications unrelated to the career field. In these cases, no update to the employee's basic acquisition data is required so the new code added bypasses the logic that nulls out the certification dates in the employee's Basic Acquisition Information EIT.</p>	CPMS	Acquisition
Remedy 22516	<p>Summary: Months SPO Experience and Date SPO experience updated on the Acquisition Employee Career Brief was not populating.</p> <p>Resolution: The report was changed to correctly populate the data items.</p>	CPMS	Acquisition

Remedy 22544	<p>Summary: The warn message for Acquisition Continuous Learning mass upload needs to be reworded.</p> <p>Resolution: In the case of a duplicate Continuous Learning ATL Mass Update Process input row, changed error message from a specific error like "45 Continuous Learning Points already exists for Fiscal Year 2004" to the more generic message "The mass update input file contained an entry that already exists in the employee record."</p>	CPMS	Acquisition
Remedy 22545	<p>Summary: Acq - Career Brief generating for each entry in Mass ATL upload.</p> <p>Resolution: Corrected where an input file for any ATL Mass Process contains multiple rows for the same employee only one Career Brief prints instead of one for each input row processed.</p>	CPMS	Acquisition
Remedy 22546	<p>Summary: NPA for DOD Correction has no info in blocks 41 thru 44.</p> <p>Resolution: Modified code to auto-populate office symbol on block 40 of the NPA for AF records. This promotion also includes changes for R22546 that restores the auto-population for blocks 40-44 on DoD corrections. Code to auto-populate C3xx actions was created for this Remedy ticket since it has not existed in the past.</p>	CPMS	Reports
Remedy 22575	<p>Summary: No data for the CSU Alpha Roster report when the date parameter values are entered.</p> <p>Resolution: Changed the date format from YYYY to RRRR for the date input parameters. This should take care of the century part of the date.</p>	Navy	CSU
CRT 04-11658-DoD	<p>Summary: A script has been prepared that will identify those RPA that have 'NOT_ROUTED' to 'UPDATE_HR_COMPLETE' for routing history in Reg03. Process Log Program Name: CRT-04-11658.</p> <p>Note: This script will be a recurring data fix until modification to the procedure by the Oracle Fed Group.</p>	AF	Other
SCR 04-17249-AFX	<p>Summary: Cleanup of Required Training, AF Appropriated Records, Required Start Date or Required End Date On or Before 30-SEP-2004 Process log program name is SCR04-17249-AFX</p>	AF	Other

SCR 04-19344-NVY	<p>Summary: Changed the Output Format for "Official Record of Training (NV-11A) " to Postscript so that it can be viewed via Ghost view and printed.</p>	Navy	Reports
CRT 04-24160-VOA	<p>Summary: Modified HR side views CSUDB_GHR_PA_REQUESTS_V and CSUDB_GHR_PA_REQUESTS_N_V. Added the following columns to Personnel action table. Name_prs, DOB, First_noa_clear_txt, Second_noa_clear_txt, fegli, gsa_geoloc, retirement_plan, work_sched, from_step, and to_step. Modified the code to populated these columns. EUL changes made to include. Name_prs, DOB, First_noa_clear_txt, second_noa_clear_txt, fegli, gsa_geoloc, retirement_plan, work_sched, from_step, and to_step in the personnel action folder.</p>	VOA	CSU

Remedy 22550	<p>Summary: NAF Correction prints incorrectly in Block 22A on DA 3434.</p> <p>Resolution: Changed the code on block 22A for corrections to display organization line 1 instead of organization line 2.</p>	NAF Army	Corrections

SCR 03-7502-DoD	<p>Summary: A script has been created to remove Realignment Extra Information DDF from REALN_GEN_OPT Family for NAF AF and Army NOA Codes A096 and N096 Realignment RPA.</p>	NAF Army and AF	Other
SCR 03-7862-DoD	<p>Summary: Description: Extract migration script to disable NAF Living Quarters Allowance Information DDF. DDF is no longer available for use through RPA. However, updates are now only through Element Entries CIV Living Quarters Allowance. NOA LQA flows to PAYROLL.</p>	NAF Army and AF	Other
SCR 04-14362-ARM	<p>Summary: This promotion is Part 2 of SCR 04-14362-ARM, Establishment of Performance based Salary Change. A New NOA and family has been defined. A new Information Type "NAF Awards Additional Info" has been defined. A new menu item defined and added to various NAF responsibilities. Business rules are in place to accomplish this SCR.</p> <p>Note: Additional information for the users.</p> <ol style="list-style-type: none"> 1. When the award percentage field is used to auto-populate Item 20A Basic Pay, the RPA must be refreshed after the award percentage is entered before the new salary will appear in 20A. User can use the "Refresh" button on Page 1 of the RPA or save to the Inbox and reopen to refresh 20A. Either way, calculated salary will then appear in Block 20A and the user should not expect to receive the popup notice that the salary has been refreshed since it does not refresh from the record. 2. If user manually inputs the salary in block 20A and also enters the award percentage, the salary will be recalculated based on the percentage and updated to block 20A if the RPA is refreshed. 3. Auto-population of One Time Earnings Code to P occurs once. 4. For 002 Corrections, since the award percentage is not stored, user needs to enter the corrected salary in 20A if salary is being corrected. 	NAF Army	Awards

	LN Only		
Remedy 18140	<p>Summary: LN employee NTE Dates are dropping out of the system.</p> <p>Resolution: Corrected the code to not null NTE dates when processing 760D, 0982, and 0986 NOA Codes.</p> <p>Note: Partial Fix. This PR will correct the NOA codes mentioned above. The remaining NOA codes in the family will be Corrected later.</p>	AF LN Germany	RPA/52
Remedy 22119	<p>Summary: LN Mass Realignment Preview displays incorrect data.</p> <p>Resolution: The following changes have been made to the mass realignment process.</p> <ol style="list-style-type: none"> 1. Corrected the code where the error message was not being raised when Target Functional Designator (AR) was null during LN Mass Realignment execution. 2. Vacant positions are appearing twice on the Preview. 3. The Mass Realignment info will now be cleared from the records when the MRE has been processed. 4. When a record is selected with the Target Data populated and then de-selected, the data in the column "Target TDA Line/Line Number" will now be cleared out for the de-selected record. 5. Target Duty Location and Target Office Symbol will now populate on the Previews from the Position Details for non-vacant records. 	LN	Mass Realignments
Remedy 22350	<p>Summary: Suspense generated two separation actions for LN employee.</p> <p>Resolution: Removed code from suspense so that the 357B, Termination of Employment, is no longer created. Only the 355A, Termination-Exp of Appt, is created.</p>	LN Army Germany	Suspense
