PR 8985	<b>Summary:</b> CIVDOD Manager Responsibility Missing Reports, Etc. <b>Resolution:</b> Deleted bad Function 'Workflow Notifications' (FNDWFNOT) attached to the Menu 'Processes and Reports'. Attached Reports 'Security Clearance Change Report' and 'Separation Brief (SEPBRF)' to the Request Group 'CIVDOD VSB Report Group'	CPMS	Roles and Responsibilities
PR 9005	<b>Summary:</b> Pay 500 with NOA Code 'POS' does not generate to payroll. <b>Resolution:</b> Added code to generate a PAY500 transaction with NOA code equal 'POS' for agency IBB/BBG-Voice of America when changes to elements "Severance Pay--Amount" and "Retirement Annuity--Sum" occur via the Element Entry form.	IBB	Payroll Interface

PR 9146	<p><b>Summary:</b> Unable to update HR for NOA Code 108 NTE 5 Years.</p> <p><b>Resolution:</b> Modified code to correctly allow NTE dates of up to 5 years when using Army Lab Demo code.</p>	Army	Appointments
PR 9313	<p><b>Summary:</b> NRL Demo DCA (Distinguished Contribution Award) problems.</p> <p><b>Resolution:</b> Changed the following:  1.Changed the Date Formats for DCA Review Date and DCA Termination Date  2. Changed the code, when Other Pay is null then element entry value (Retention Allowance) also null</p>	Navy	Pay
PR 9324	<p><b>Summary:</b> AF Lab Demo CCS Update not completely updating all records.</p> <p><b>Resolution:</b> Initialized null to the Analysis Criteria Id variable to avoid assigning same key flex field data to the other records.</p>	AF	Other Mass Actions
Remedy 13672	<p><b>Summary:</b> CIVDOD MANAGER Role Missing Task Flow Buttons on People screen.</p> <p><b>Resolution:</b> There were no task flow buttons visible at the bottom of the People screen.</p>	DoDEA	Roles and Responsibilities
Remedy 13687	<p><b>Summary:</b> Date Overseas Tour Expires is dropping out when processed actions.</p> <p><b>Resolution:</b> Corrected where information was null in the US Gov Person Group2 DDF during RPA for 7## NOA Codes. This problem was caused by a flag not being set to update the DDF and the code was not checking for null values before processing the update.</p>	Army Europe	Other
Remedy 13732	<p><b>Summary:</b> Clients unable to remain logged in to the database.</p> <p><b>Resolution:</b> Corrected the following:  (1) Set pa_request_id, person_id and position id for server side validation.  (2) Created new package, functions to set and get the corresponding ids for validation.  (3) Replaced the global references with corresponding functions in segments. CRT-03-7460-NVY	<b>Summary:</b> Delete RPA that can't be accessed for Navy REG01, REG14 & REG17. These scripts are to delete the requested RPA and their related fragments that still show up, and are stuck in inboxes for Navy REG01, REG14 & REG17. The first cursor in each script will utilize the DELETE_RPA_API, by using the request id's for those RPA that still exist in the GHR_PA_REQUEST table. The second cursor uses the NOTIFICATION_ID'S which still show fragments of the missing RPA that are stuck in their inboxes, but no longer exist in the GHR_PA_REQUEST TABLE. The fragments still show the Request Number or request id in the notification attributes table, found by searching the text value field, which in turn provides the needed notification id's to do the rest of the clean up. Script can run anywhere but will only work on regions specified	Navy	Other
CRT 03-7713-ARM	<b>Summary:</b> This script will correct 32 WGI pay elements at Region 11 that have an incorrect value in effective end date. The incorrect value of 06-mar-2202 will be changed to 31-dec-4712. There is also a corresponding future dated element that begins on 07-mar-2202. This element is incorrect and will be removed. SCR 03-5295-NVY	<b>Summary:</b> (1) Procedures amended to automatically update duty status on appointment actions and return to duty actions for Cuba Local National employees. The Pay500 transactions for Cuban Local Nationals were being rejected because the duty status was equal to NULL. The duty status will now be automatically updated for appointment and return to duty actions for Cuban Local	Navy LN Cuba	Duty Status

	<p>Nationals. The PAY500 transactions have been updated that are generated to reflect the duty status ('00') in record positions 187-188.</p> <p>(2) Changed the Local National RPA update code so that it does the following:  If the action is of appointment type, and the position is for a Local National in Cuba, and the employment type is one of the following: 1, 2, D, or E, then updated the duty status to '00'.  If the action is of return to duty type, and the position is for a Local National in Cuba, then updated the duty status to '00'.  If the action is a DOD Correction or LN Correction to an appointment, and the position is for Local National in Cuba, and the employment type is one of the following: 1, 2, D, or E, then updated the duty status to '00'.  If the action is a DOD Correction or LN Correction to a return to duty, and the position is for Local National in Cuba, then updated the duty status to '00'.</p>		
SCR 03-6764-DoD	<p><b>Summary:</b> SCR for Germany LN Awards - ARMY.</p> <p>(1) Added the German translations for NOAs 840A, 841A, 842A, and 843A to the following lookup tables:  CIVDOD_LN_NOA_GERMAN  CIVDOD_LN_NOA_GERMAN2  Note. Even though the SCR requested that these changes also be made for NOA Codes X802, X803, X804, X805 this is not the correct place to do this. The translations for the DOD Corrections are made programmatically by looking at values in lookup table ECTION_CODE_MAP. The cross-references for the awards were already in this table so no changes to it were required.</p> <p>(2) Added a business rule during the RPA process to ensure that if the NOA is one of the following: 840A, 841A, 842A, 843A, X802, X803, X804, X805, and the person assigned to a Local National position, and the Award Agency Code specified in Extra PA Request Information Type 'LN Award Information' is Army (AR) , then the amount must be in whole numbers. If there is a violation of this rule, then an error message will appear.</p> <p>(3) Added a business rule to the Local National Mass Awards process to ensure that if the NOA Code is 840A or 841A. If the person assigned to a Local National position, and the Award Agency Group specified in the Award Details is Army (AR), then the amount must be in whole numbers. If there is a violation of this rule, then the error will be recorded in the Mass Awards (CIVMAW) report. NOTE. NOA Codes 842A</p>	Army LN Germany	Awards

	<p>and 843A are not currently available for Local National Mass Awards.</p> <p>(4) Changed the 'Local Nationals Germany Notification of Personnel Action Air Force' report so that the correction action (NOA 002) would not result in a 'f002_scd_leave fatal PL/SQL error' error.</p> <p>(5) Changed the following reports so that the German translation to a DoD Correction would print correctly when the originating NOA ended in an alphabetic character:  Local Nationals Germany Notification of Employment Status Army  Local Nationals Germany Notification of Personnel Action Air Force  Local Nationals Germany RPA Non-US Air Force  Local Nationals Germany RPA Army</p> <p>(6) Changed the 'Local Nationals Germany RPA Army' report so that the German translation of the NOA description is moved all the way over to the left instead of directly under the NOA English description.</p>

Oracle 2907380	<b>Summary:</b> Corrects where the Suspense Routine had up to 90 parameters that could be inserted. The 11i modification would not allow more than 30 parameters. <b>Note:</b> There is a known problem with this patch. This problem involves the usage of the filter criteria for long List of Values (LOV). You can only process filtered inquires by the first character followed by a percent sign (e.g. A%) to retrieve all Values starting with character that you put in. You can process filtered inquires to pull in all values by using an underscore followed by a percent sign (e.g. _%). You cannot process a filtered inquiry by using more than the first character followed by a percent sign (e.g. CA%). TAR 3299680.995 has been logged with Oracle	Oracle	Other
