PROBLEM :	PERSONNEL <input type="checkbox"/>	PAYROLL <input checked="" type="checkbox"/>
<p><u>Movement of Retention Incentive between Permanent (P) and Temporary (T) Supplemental Records:</u> Employee is on a T sup when the Retention Incentive begins. When the T sup expires or is terminated, the employee would revert back to the P sup. Since the incentive was never under the P sup (started while on the T), a new transaction would be needed to start the incentive under the P. It will not carry forward from the T to the P.</p>		

WORKAROUND:	PERSONNEL <input type="checkbox"/>	PAYROLL <input checked="" type="checkbox"/>
<p>Personnel: HR users will need to regenerate the NOA 827, Retention Incentive, with the effective date of when the employee reverted back to the permanent appointment.</p> <p>NOTE: Employee who was on a P sup when Retention Incentive began and then received a temporary assignment, HR users should review Retention Incentive impact due to temporary assignment.</p>
