

PATCH 50.13.5

Scheduled to be released to the field, Sunday, September 28, 2003, at 9:00 A.M. CDT
(This may be subject to change to due the mass realignment scheduled for this weekend)

Database changes only.

REPAIRS

PROBLEM REPORT NUMBER	REPAIR	Initiated By	Critical Function
Remedy 13815	Summary: Invalid error message when processing AGR Actions. Resolution: Corrected several conditions. 1. Modified value sets of 5 segments from FND_DATE4 to FND_STANDARD_DATE in CIVDOD_PER_AF_AGR DDF. 2. Updated current and history table values with canonical format for CIVDOD_PER_AF_AGR info type. 3. Modified package for better error handling. 4. Added new messages for better error display.	NGB	Separations
Remedy 13984	Summary: Auto WGI Process for TP pay plan doesn't update info properly. Resolution: Fixed the code to calculate the Pay Date and Due date correctly for Pay plan AD. Auto WGI process will not fetch those records in the region until the data fixed. The script ad_pay_plan.sql will fix the additional problem reported in this ticket for individual 893 processes. Note: This Remedy was corrected with the release of Remedy 14307 in Patch 50.12.	DoDEA	WGIs
Remedy 14018	Summary: Pseudo NPA (Block 26) auto-populating Veteran's Preference for RIF to "NO" and there is a character " " printing in block 36. Resolution: Corrected the logic to correctly auto-populate the Veteran's Preference for RIF.	DFAS	NPA/50
Remedy 14057	Summary: Performance problem previewing mass realignments. Resolution: Fix server side validation problem on segment Line Number. Modified mass realignment code to avoid history fetch routine when inappropriate. Corrected retrieval of TDA Line Number in Preview screen	DLA	Mass Realignments

Remedy 14460	<p>Summary: Draw down Indicator dropping off of Pay500 (NOA 303/825 Actions).</p> <p>Resolution: Modified extra information retrieval package to allow the successful update during RPA process.</p> <p>Note: This Remedy was corrected with the release of Remedy 14449 in Patch 50.12.</p>	DLA	Pay Interface
Remedy 14665	<p>Summary: Mass Salary Process is allowing two 894 effective on the same date.</p> <p>Resolution: This change will revert code back to the way it worked before the retroactive 1% locality pay change. The code will not allow two 894s on the same person to be processed with the same effective date through the mass change process.</p>	CPMS	Mass Salary Process
CRT 03-8175-DoD	<p>Summary: Script to generate Army Civilian Type and flow to payroll via noa GBB. For NGAR Tech employees.</p>	NGB	Other
CRT 03-9184-DoD	<p>Summary: For AGR types, in US Federal Security person extra info and AGR Security Data in AGR Request Extra info, converts old investigation basis and personnel sec clearances to newer codes. Also changes value sets for AGR Security Data flex field. The segment "Sec Investigation Basis" will now use the value set "GHR_US_SEC_INVEST_BASIS", and the segment "Personnel Sec Clearance" will now use the value set "GHR_US_PERS_SEC_CLEAR"</p>	NGB	Person
