Scheduled to be released to the field, Sunday, November 07, 2004 at 9:00 A.M. CST

Database changes only.

### REPAIRS

<b>PROBLEM REPORT NUMBER</b>	<b>REPAIR</b>	<b>Initiated By</b>	<b>Critical Function</b>
Remedy 16254	<b>Summary:</b> NTE dates missing from CSU Suspense Data Screen. <b>Resolution:</b> Updated the Assignment NTE Date DDF in the application table with the data from the history area. Look for process log R16254. <b>Note:</b> Recurring requirement until corrected by Oracle. TAR 3843669.994, Bug 3780671 has been submitted to Oracle.	DoDEA	Cancellations
Remedy 16927	<b>Summary:</b> 'Education' data is not flowing to 'US Federal Education' SIT properly. <b>Resolution:</b> The following modifications were made to the update package. 1. Added a check so that delete API will be called only when person analysis id is not null. 2. Added code so that information will flow from Education to US Fed Education. 3. Changed the Code to check for existence of records as of the PAR effective date. 4. Changed the code so that The update SIT call will work.	CPMS	Other
Remedy 17707	<b>Summary:</b> Post Allowance table in CSU is not being refreshed from the regional HR (REG03) database. <b>Resolution:</b> Oracle Fed changed the name of the Element. This affected the CSU population of CSU_LN_ELEMENT_CODES table. Modified the code to not insert row for the Federal Awards element in the CSU_LN_ELEMENT_CODES table.	AF	CSU

Remedy 17687	<p><b>Summary:</b> The field is experiencing problems with NOA Code C866, DoD Correction to Termination of Grade Retention Problem.</p> <p><b>Resolution:</b> Modified the code in the procedure package to fix the DOD corrections for NOA Code C866.</p>	Army	Corrections
Remedy 17767	<p><b>Summary:</b> User's are building applicants in DPCDS, applicants are completing the required forms in CVIP and upon the applicant completing the forms, the staffers are then opening the RPA to complete the HR process, however, they are receiving a message which states the applicants data has been changed to blanks.</p> <p><b>Resolution:</b> Added a Trigger to monitor the delete actions on the People table. The new trigger will write deleted records information into a process Log. These log records will be maintained for a year. Process Log Name: "Deleted Applicant".</p>	AF	Other
Remedy 17852	<p><b>Summary:</b> NOA Codes 002/866, Correction, populates the wrong amounts for Total, Adjusted Basic, and Locality pay and will not allow user to proceed.</p> <p><b>Resolution:</b> Modified the code in the procedure package to fix the DOD corrections for NOA Codes 002/866.</p>	Army	Corrections
Remedy 18345	<p><b>Summary:</b> The run-time for the SF-52 Tracking Report has increased.</p> <p><b>Resolution:</b> Created a Global Temporary Table for SF52 Tracker to improve the performance of the Report.</p>	AF	Reports
Remedy 18438	<p><b>Summary:</b> Received an incorrect NAF Retirement Indicator upon some actions.</p> <p><b>Resolution:</b> Modified the code to auto-populate the Retirement Indicator with the value in the employee's record. If there is no value in the employee's record then the code will bypass the auto population. Made these changes to 5XX, 7XX and 9XX actions.</p>	Army	Benefits and Entitlements
Remedy 18657	<p><b>Summary:</b> Preview is taking too long. The source criteria limits the number of records that become available through preview, therefore, preview should not take long for a small amount of records. Vacant positions are not coming through preview in order for the data to get changed.</p> <p><b>Resolution:</b> Modified the selection criteria to improve performance.</p> <p><b>Partial Fix:</b> This is a partial fix on performance issues only. The preview now populates within a reasonable amount of time depending on the criteria provided in Preview or Final screen.</p>	CPMS	Mass Realignments

Remedy 18659	<p><b>Summary:</b> Resumix Refresh jobs on REG12 and 21 are failing. Receiving the following errors:  ERROR at line 1:  ORA-06502: PL/SQL: numeric or value error: character string buffer too small  ORA-06512: at "CIVDODHR.EX_ERROR_PKG", line 214  ORA-06512: at "CIVDODHR.CIV_INT_RESUMIX", line 457  ORA-02055: distributed update operation failed; rollback required  ORA-02068: following severe error from RESUMIX  ORA-03113: end-of-file on communication channel  ORA-06512: at line 1  Resolution: Increased the 'Error Mesg' column length in Error Stacks, Error Log tables and object handler. Also increased the object name columns length in the Error Call Stack table to eliminate the numeric or value error. Created a staging table 'CIVDOD_INT_RESUMIX_PERSON' and modified the Resumix refresh procedure to move the personal data from Resumix to avoid a database link time out problem.</p>	CPMS	Resumix
Remedy 18718	<p><b>Summary:</b> Create a procedure, similar to what we're doing with the process log that cleans out the old data on a scheduled basis.  <b>Resolution:</b> Created a script that will delete any attached documents from 10.7 of the application. These documents are no longer needed, nor can they be accessed in version 11i. Process Log PR18718.</p>	CPMS	Unix
Remedy 18721	<p><b>Summary:</b> The CPDF Dynamics Report is not sending separate rows on dual actions..  <b>Resolution:</b> Modified the code for both CPDF and AFCPDF Dynamic Reports to create separate rows for all dual actions with exception of First NOA Code being 001/002.</p>	DoDEA	Reports
Remedy 18745	<p><b>Summary:</b> The EOP History file is pulling incorrect salary on hourly employees.  <b>Resolution:</b> Created a script to alter the CIVDOD_EOP_HIST_TEMP table to change the data type format for Adjusted Basic Pay, Basic Salary Rate, and Total Salary columns from number(15) to Number(18,2).</p>	EOP	External Interfaces

Remedy 18748	<p><b>Summary:</b> The CIV_INT_JPAS job is failing on Army and Air Force with these types of errors.  ORA-12012: error on auto execute of job 2006  ORA-04030: out of process memory when trying to allocate bytes (,)  ORA-06512: at "SYS.DBMS_SYS_SQL", line 1120  ORA-06512: at "SYS.DBMS_SQL", line 323  ORA-06512: at "CIVDODHR.CIV_INT_JPAS", line 116  ORA-06512: at "CIVDODHR.CIV_INT_JPAS", line 55  ORA-06512: at line 1.</p> <p><b>Resolution:</b> Modified the code to ensure that the CIV_INT_JPAS interface will run without error.</p>	LMIT	External Interfaces
Remedy 18754	<p><b>Summary:</b> CRT 04-18257-DoD in Patch 53.21, caused additional problem on one employee.</p> <p><b>Resolution:</b> A script has been created to correct the WGI problem on the employee. Process log program name is PR18754.</p>	NGB	WGIs
Remedy 18777	<p><b>Summary:</b> The Signature block is not printing/appearing on the NPA.</p> <p><b>Resolution:</b> The cursors used to fetch the approving Official's name and work title had a duplicate check for effective dates. One check was with the system date and another check was with the effective date of the RPA. Modified the SF52 API to print the SF50 Approving Official's name and work title.</p>	Navy	NPA/50
Remedy 18782	<p><b>Summary:</b> The "Batch Print NPA - m2m" does not display on the Reports LOV for the US Federal HR Manager.</p> <p><b>Resolution:</b> Concurrent program 'M2MSF50' is already defined and attached to US Federal HR Manager but the User concurrent program name is defined as 'Customer Balance by Account'. Created a migration script to change the name to 'Batch Print Notification of Personnel Action - m2m'.</p>	CPMS	M2M
Remedy 18783	<p><b>Summary:</b> The batch print parameter NOA Code Errors when the NOA Code contains an Alpha character.</p> <p><b>Resolution:</b> Created new value set for Batch printing NPA (CIVSF50NGB, DEMOSF50B, GHRSF50B, and BATCH_NPA_AD) to input parameter NOA Code as alphanumeric characters. Below are the names of the reports that were changed to accept alphanumeric character in NOA Code. Batch Print Notification of Personnel Action - NGB Batch Notification of Personnel Action - AD Faculty Employees Batch Print Notification of Personnel Action Batch Print Notification of Personnel Action - Demo SF50</p>	CPMS	Other

Remedy 18787	<p><b>Summary:</b> M2M cancellation of MGM action does not purge the employee and position record.</p> <p><b>Resolution:</b> Modified the GHR52L library code to execute the M2M cancellation code. This modification will remove employees and assignments records but will not purge the position records.</p>	CPMS	M2M
Remedy 18870	<p><b>Summary:</b> Change the EEOC 462 Report Output Format Back to PDF.</p> <p><b>Resolution:</b> Modified report style from Postscript to PDF.</p>	CPMS	CATS
Remedy 18875	<p><b>Summary:</b> Receiving a "Flex Value Not Unique" error when pulling Pseudo SF50s on duplicate records.</p> <p><b>Resolution:</b> Corrected the Value set no to raise "FLEX VALUE NOT UNIQUE "error. Remedy 18893	<p><b>Summary:</b> Mass Realignment executed records show Code VS Decode organization value.</p> <p><b>Resolution:</b> Modified the code to replace the Organization ID's with corresponding organization names when inserting those values into the processed Mass Appraisal records into the table.</p>	CPMS	Mass Realignments
Remedy 18909	<p><b>Summary:</b> Excess errors are being logged on suspense rip generation for Ex-Employees.</p> <p><b>Resolution:</b> The procedure was modified to bypass the ex-employees during the RIP generation.</p>	AF	Reports
Remedy 18911	<p><b>Summary:</b> Users were running existing Discoverer queries that prior to the 9i release took two minutes to process. Now it takes 30+ minutes for the same queries to run.</p> <p><b>Resolution:</b> Changed the regional report data secv to include an ordered hint for better performance. The reports now complete in 10 seconds or less with the exception of Query, AR_Import Files1 will complete in less than five minutes.</p>	NBG	Other
Remedy 18931	<p><b>Summary:</b> The report RP666, Notice of completion of VRA Requirement, errors out.</p> <p><b>Resolution:</b> Modified the comments column in the report. Increased size of the comments from 30 to 50.</p>	AF	Reports

Remedy 19692	<p><b>Summary:</b> Attempted to execute a quick copy and received a pop-up window with the errors ORA-20001 and 06512.</p> <p><b>Resolution:</b> During the quick copy process, the copied position was not cached properly in the session. Modified code to cache the position and to copy successfully.</p>	AF	Position
SCR 03-5091-ARM	<p><b>Summary:</b> Implementation of the Uniform funding and Management Program. Establishes the DDF CIVDOD_POS_ARM_UNI_FUND_MGT_CO that defaults the Uniform Funding Management code for Appr and LN positions and makes it mandatory for NAF (this is for all the New Positions). A script will be run to update all NAF, APPR, and LN Army positions to create the New DDF and Default the code to "0".</p>	Army	Other
SCR 03-8019-ARM	<p><b>Summary:</b> Added Data Element for the Army Realignments 'US and LN'. This modification impacts mass realignment, individual 790 actions, and position maintenance for Army Appropriated and Local Nationals. Added the field "Functional Designator (AR)" to the additional position details screen for mass realignment as well as to the mass realignment preview screen. The same field was added to the custom PAR DDF for individual 790 realignment actions. Both mass and individual realignments will update the functional designator in the "Army Appropriated/Local National" Position DDF when the RPA is consummated. A business rule was added to position validation so that the functional designator must be 1, 2 or 3 for Army positions. This field can no longer be null.</p> <p><b>Additional Note:</b> If a user has established a folder view for Mass Realignments (had one that put the position number in the first column after the Employee Name/SSAN), and tries to use that view, then there will be a series of pop ups that essentially are saying there is no place to put the information, This information consists of the newly added preview columns. The user can proceed, but will not see the new columns in the preview. The solution is to delete the folder view. A new view can be created, and it will display all of the old &amp; new columns for the MRE.</p>	Army	Realignments

SCR 03-9373- NGB	<p><b>Summary:</b> Change Mass Realignment Process for National Guard Army (NGAR) Technicians to include the Data Field AMSCO. This change will impact mass realignment. Added the field "AMSCO (NGB)" to the additional position details screen for mass realignment as well as to the mass realignment preview screen. Whatever value is entered into this field will overwrite the data in the Appropriation Code 1 field on the preview screen, but only when the agency sub-element is NGAR and the position type is TECH. When the mass realignment RPA is consummated, new code added will update the AMSCO segment of the "Army Guard Technician" Position DDF.</p>	NGB AGR	Mass Realignments
SCR 03-10164- DoD	<p><b>Summary:</b> Format Corrections to the following Reports. PROBC, PSNEX, TMPRO, EXPN1, VRACV, and LOCSP. For NGB I modified how the "TO:" field and the "ORGANIZATION" fields print. The "ORGANIZATION" will be truncated on most of these reports but will allow as much text as possible to show.</p>	NGB	Reports
CRT 04-11658- DoD	<p><b>Summary:</b> A script has been prepared that will identify those RPA that have 'NOT_ROUTED' to 'UPDATE_HR_COMPLETE' for routing history in Reg03.Process Log Program Name: CRT-04-11658.</p> <p><b>Note:</b> This script will be a recurring data fix until modification to the procedure by the Oracle Fed Group.</p>	AF	Other
SCR 04-11906- ARM	<p><b>Summary:</b> Added alert edit to give warning to user when Retirement Plan equal 5 for NOA Codes 1##, 5##, 002 and DOD Corrections. User have option to respond to YES continue with RPA or NO to return to Extra Info and change NAF Retirement Indicator from 0 to appropriate value.</p>	NAF Army	Other
SCR 04-12005- ARM	<p><b>Summary:</b> Additional Data in the NAF Outbound Payroll Transmission. Modified the Army NAF Payroll Outbound file to include the following additional information: second shift rate, third shift rate, previous pay cycle, previous standard NAFI number, previous employee SSAN, previous dual appointment code, state tax status, state tax claimed exemptions and state tax additional amount. The payroll regeneration form has been modified to display 2 columns of data in order to accommodate additional data now and in the future.</p>	Army	External Pay Interfaces
SCR 04-12429- AFX	<p><b>Summary:</b> Notice of Supervisory Managerial Completion Report RP664 Change. Added an AF layout to this report so that additional clear text will be printed. Also changed the suspense process so that AF will receive RP664 and no longer receive RP677.</p>	AF	Reports
SCR 04-12742- NGB	<p><b>Summary:</b> Request Report "LOCSP" be Produced on AGR Employee Records. Added code to report LOCSP to print for AGR records where component</p>	NGB AGR	Other

	in NGAF, NGZG, and NGAR.		
SCR 04-13267- NGB	<b>Summary:</b> Update of Job Data Field in AGR Position. A new NOA ('POS') for NGB users was created to update position items (Occupational code, FLSA, Supervisory Status, Bargaining Unit Status and Position Occupied). These items are provided in a DDF called AGR Updatable Position Items.	NGB AGR	Position
SCR 04-14033- AFX	<b>Summary:</b> Added system capability to auto-calculate the NTE Date on Temporary Promotions and Details. In the SIT, Detail Information, depending on the value entered in the field 'Total Days This Detail', the SIT will now be end dated by adding this value to the start date.	AF	NTE Dates

SCR 04-14287-DoD	<p><b>Summary:</b> Established a new process to allow changes to encumbered AGR positions. Set up a new NOA ('POS') for NGB users to be able to update some position items (Occupational code, FLSA, Supervisory Status, Bargaining Unit Status and Position Occupied). These items are provided in a DDF called AGR Updatable Position Items. Added code to update the position status to Valid after the update of the Position Items.</p>	<p>NGB AGR</p>	<p>Position</p>

SCR 04-14576-AFX	<p><b>Summary:</b> Disabled the capability for the user to update or change the sequence number on a position. This applies to all positions: appropriated, non-appropriated, local national and demonstration project. Changed the Position Library so that if the user changes the Position Sequence Number, upon the save of the Position, the user will get an error message that indicates that this is not allowed. The error message will also display the original Position Sequence Number so that the user can change it back to the original number.</p>	<p>AF</p>	<p>Position</p>
SCR 04-14579-AFX	<p><b>Summary:</b> Added an Edit to facilitate identification of supervisory and managerial training for Manager and Supervisors. Added new business rules and error message texts to validate Position type employee supervised. Created a new pop up warning CIV_SUPV_STATUS_WARN to execute whenever Supervisory Status is changed to 2 or 4.</p>	<p>AF</p>	<p>Other</p>
SCR 04-14903-DoD	<p><b>Summary:</b> Request for Auto-population of Army Civilian Type for National Guard Army Technician Records. Added code NOA Codes 1##, 3##, 5##, 7##, 9##, 002, 001 and DOD Corrections. CType values also will flow to payroll after RPA consummates. NOA GBB is however flowed to payroll when CType is updated through Person Extra Information screen.</p>	<p>NGB TECH</p>	<p>Other</p>

SCR 04-14977-DoD	<b>Summary:</b> Applied the auto-population of Appraisal data to new hire Excepted Technician actions. Added code to populate US Fed Performance Appraisal for NOA 170 and 171, Position Type equal TECH with rating of Record 'X', Rating of Record Level 'X', Appraisal Type 'P' and Date Effective with Effective date of the RPA. For data clean up script, program name is 'SCR04-14977-DOD', no records matched this criteria".
