PR/CRT NBR	REPAIR	Initiated By	Critical Function
Remedy 22404	Summary: Positions validate while missing critical data Resolution: Added code to exclude positions having missing information would not validate.	AF	Positions
Remedy 23014	Summary: Two subfolders are missing from the DoD Corporate Data Universe. Resolution: Added PA Routing History and Event History to Personnel Actions. Reformatted NOA Code -1 and PA Routing Num from decimals to numbers in PA Routing History folder thru Designer.	DeCA	CMIS-R
Remedy 23015	Summary: The Assignment effective start date and effective end date exist in the Warehouse but not in the MART. Resolution: Added two new columns 'Asgn Effective Start Date' and 'Asgn Effective End Date' to the MART table D_EI_DATE. Added code to populate the two new dimension D_EI_Date columns 'Asgn Effective Start Date' and 'Asgn Effective End Date' and moved to the new package CMISR Assignments API from the package D_Position API for assignment information processing.	AF	CMIS-R
Remedy 23020	Summary: CMIS-R BO Report is not providing all Certificates of ACQ Career Level Certificates. Resolution: The following modifications were made. a. Moved from folder: Employee/Acq Corps Qualifications/Dt Exception Granted. Employee/Acq Corps Qualifications/Exception to CAP Quals. b. Moved to folder: Waivers/Critical Acq Assignment Waiver/Dt Exception Granted. Waivers/Critical Acq Assignment Waiver/Exception to CAP Quals. c. Changed the joins in the Acquisition Universe to get all the multi-occurrence values from the sits. Note: This is a partial fix for PR 23020 until the modifications have been applied to all CMIS-R universes.	AF	CMIS-R
Remedy 24220	Summary: EHRI Employee records with a Locality Pay amount of Zero was previously reported with a zero (0). Resolution: Employees that are entitled to locality pay will now display the locality amount, and those employees that are not entitled to Locality Pay, e.g. WG employees, will display a null (blank). Remedy 24231	<p>Summary: EHRI Status - Language Identifier.</p> <p>Resolution: Requirement to pull Language Proficiency data items is as follows: The Language code will continue to be populated from Segment1 (Language Identifier). The type codes will now be hard coded as follows: Reading = 03 Speaking = 01 Listening = 02 Writing = 04 The code will now pick up any not null values for Reading, Speaking, Listening, and Writing and will populate language code1 with the first not null value, Language code2 with the 2nd not null value etc. This process will carry on for multiple records until either, there are no more records, or the max count of 8 is reached. Language Level code will be populated from the value stored in the corresponding Reading/ Speaking/Listening/ Writing field.</p> <p>Oracle Patch 4710526, TAR 4472060.994, Bug 4694331</p>	CPMS	Reports
Remedy 24233	<p>Summary: EHRI Status - Emergency Contact.</p> <p>Resolution: Emergency Contact Dates were previously displaying incorrectly, specifically Emergency Contact Information Update Dates 1 and 2. Date format now displays in YYYY-MM-DD. Also the report now includes an Internal Emergency Contact type of 'EMRG' so any records of that type will also be included on the EHRI Status report. No issues with suffix will be addressed at this time, but will be addressed under another enhancement to this Federal HR application.</p> <p>Oracle Patch 4710526, TAR 4745965.992, Bug 4731869</p>	CPMS	Reports
Remedy 24237	<p>Summary: EHRI Status - TSP Election TSP Effective Date.</p> <p>Resolution: Previously the TSP Effective Date was not reported if the TSP Rate was used instead of Amount. Now if the Rate is not null, the TSP Effective date is populated.</p> <p>Oracle Patch 4710526, TAR 4753220.993, Bug 4652045</p>	CPMS	Reports
Remedy 24240	<p>Summary: EHRI Status - Performance Appraisal.</p> <p>Resolution: The EHRI Status report now pulls the SIT record with the latest SIT Start Date that is available as of the (parameter) report date entered.</p> <p>Oracle Patch 4710526, TAR 4754049.993, Bug 4672716</p>	CPMS	Reports
Remedy 24247	<p>Summary: EHRI Status. The extract file created from the report has 170 fields and the layout in "The Guide to Human Resources Reporting" only shows 166 fields. This is causing the file to not line up correctly.</p> <p>Resolution: The following five data elements of the EHRI Status report requirements were removed from the EHRI Status report.</p> <ol style="list-style-type: none"> Benefits Continuation Annual Leave Balance Indicator. Benefits Continuation Annual Leave Balance Election Date. Benefits Continuation Annual Leave Balance Election Notification Date. Benefits Continuation Election Date.
