FIXES

PR/CRT NBR	FIX	Initiated By	Critical Function
Remedy 17188	Summary: Pristine - Title 38, RPA 855 Problems Resolution: TAR was logged for this PR and FED delivered partial fix. For 855(Head Nurse Pay) on GS employee, if step is changed to 11 or 12 then play plan must change to GG. The fix delivered by FED works fine if RPA is updated with out saving to inbox. If RPA is sent to inbox, the retrieved Grade ID is refreshed back to then old value and the pay plan is not changed in assignment and position records. Made custom fix to not refresh Grade ID when coming from inbox.	CPMS	Pay
Remedy 24165	Summary: Records show Temp Reassignment NTE Assign Status after Permanent Reassignment Resolution: 1. Modified code to check for prior Assignment Status of "Temporary Reassignment NTE" and change to "Active Appointment" except if the prior Assignment Status is "Term/Limited Appointment" while processing Reassignment (721) actions. 2. Added a script to fix assignment status for Laura A. Adcock and Robert L. Aiken on REG24. Process log name is 'R24165'.	DoDEA	Other
Remedy 25100	Summary: Positions not available in Self service hierarchy Resolution: Modified the way the Position Hierarchy form defines the Subordinate Position Block List of Values.	AF	Self Service

<p>CRT 05-38606-DOD</p>	<p>Summary: Tracking Deployed Civilians Resolution: 1. Created a new Special Information Type (SIT) 'Civilian Deployment Info' located in People > Enter and Maintain > Special Info with the following fields: a) Date Departed Perm Duty Location b) Date Arrived In Theater c) Deployed Duty Location Code d) Date Departed Theater e) Date Returned Perm Duty Location f) Operation Identifier g) MIA Status h) KIA Status i) POW Status j) Medical Evacuation k) Deployed UIC/PAS. Attached LOVs for Deployed Duty Location Code and Operation Identifier. SIT can be manually created or created thru the RPA process with NOAC 0921. Date Departed Perm Duty Location, Deployed Duty Location Code and Operation Identifier are mandatory entries when creating the SIT entry. 2. Created a RPA DDF 'Civilian Deployment Info' with these same fields and attached this DDF to NOAC 0921 and NOAC 0922. For NOAC 0921 Date Departed Perm Duty Location will be auto-populated from the effective date of the RPA and Operation Identifier will be auto-populated from the LAC on the RPA when the LAC is one listed on the Operation Identifier LOV and a SIT entry will be created upon Update HR. For NOAC 0922 Date Returned Perm Duty Location will be auto-populated from the effective date on the RPA when the LAC is one listed on Operation Identifier LOV and the SIT entry will be end-dated upon Update HR. For NOAC 0922 and 002 Corrections to 0921/0922, Date Departed Perm Duty Location is a required entry and is used to identify which SIT entry to update. A business rule was established to allow input of data in the Civilian Deployment Info DDF only when the LAC is one listed on the Operation Identifier LOV. 3. Code "7ZZ - Unknown" was added to the GHR_US_LEGAL_AUTHORITY table and the Operation Identifier LOV. 4. Created new tables in CSU 'Civilian_Deployment_Info' and 'Civilian_Deployment_Info_SECV' with these new fields and added to the CSU EUL folder 'Civilian Deployment Info'. Changed the refresh process to populate the data. 5. Added the new fields and tables to the CMIS-R DoD Corporate Data and DoD Corporate Data (Current) universes in the 'People' folder under the 'Civilian Deployment Info' subfolder.</p>	<p>DoD</p>	<p>CMIS-R</p>
