

# PERSONNEL / PAYROLL INTERFACE WORKAROUND

**CPMS CONTROL NUMBER:** 11-0003

<b>ISSUE DATE:</b> 20-May-2011	<b>PR/DAR NO:</b> 078963
<b>RESCIND DATE:</b>	<b>REMEDY NO:</b>

**PROBLEM :**                      **PERSONNEL**                       **PAYROLL**

**Pay Plans WM and WT Not Allowing Pay Table Number Updates in DCPS**

Per prior SCR X2542, Pay Plans WM and WT do not allow a Pay Table number change via the interface. At the time, logic was added for DCPS to ignore the value passed in the interface for these pay plans and bring forward the pay table number from the Supplemental in effect. When an employee's pay table number is changed to WM or WT, in some cases, the employee doesn't have a pay table number on the current SUP. This results in a reject. For those that have a pay table number on the current Supplemental, this could result in incorrect payment to the affected employee.

**WORKAROUND:**                      **PERSONNEL**                       **PAYROLL**

**PERSONNEL:** HR user will submit a DFAS Remedy ticket using the title *WORKAROUND* citing this workaround number when the action they are creating is updating a pay table number for an employee with WM or WT pay plans. Personnel will need to put a remark in the Details section stating what pay 3table the employee is going TO.

**PAYROLL:** Payroll must manually enter the pay table number from the details given on the remedy ticket.

**DATE TO DFAS/CPMS:** 09-May-2011
