REPAIRS

PROBLEM REPORT NUMBER	REPAIR	Initiated By	Critical Function
Remedy 14235	<p>Summary: LN Pay Elements (Excludes Italy). Resolution: A script has been created that will clean LN records to remove the elements 'Adjusted basic pay except Italy' and 'Locality Pay' for all LN employees. Process log program name is R14235.</p>	LN	System Fundamentals
Remedy14282	<p>Summary: Cancellation of Dual NOA CAO not creating Pay500 and NPA correctly. Resolution: Changed the process of how a person cancels a T292 dual action. The new process is as follows.</p> <ul style="list-style-type: none"> a. Cancel the second action first. b. Cancel the T292 action last. <p>If an attempt is made to cancel the T292 action without canceling the second action first, an error message will appear to inform the user to cancel the second action first.</p> <p>Changed the Oracle code so that the second action of the dual CAO RPA is not considered to be of appointment type. Also put in an error condition so if the user attempts to cancel the T292 action before canceling the second action, an error message will appear. NOTE: Information on the revised CAO process is posted on the CPMS website.</p>	CPMS	CAO
Remedy 15008	<p>Summary: DDF's for CAO Appointment Family missing on PA Extra Information. Resolution: Added a new function to the menu 'CAO/Transfer' and removed the submenu for CAO/Transfer request form. Replaced the original Workflow functionality with direct call to packages and procedures. Note: Part of CAO Re-Architecture. Information on the revised CAO process is posted on the CPMS website.</p>	DeCA	CAO
Remedy 15088	<p>Summary: Automatic separation is not working when CAO Batch is run. Resolution: Added new code and modified existing code to suite the new architecture and to take care of the identified problems. Developed interface that replaces the existing CAO/Transfer interface. Note: Part of CAO Re-Architecture. Information on the revised CAO process is posted on the CPMS website.</p>	CPMS	CAO
Remedy 15469	<p>Summary: ORA-20002: 3122: Duplicate item</p>	CPMS	CAO

	<p>'CAO/2191' could not be created.</p> <p>Resolution: Added new code and modified existing code to suite the new architecture and to take care of the identified problems. Developed interface that replaces the existing CAO/Transfer interface. Note: Part of CAO Re-Architecture. Information on the revised CAO process is posted on the CPMS website.</p>		
Remedy 15841	<p>Summary: DOD Correction does not flow the 002 Action to the DMDC Dynamic output.</p> <p>Resolution: Modified the DMDC package to flow the corrected NOA at both the positions.</p>	DoDEA	Corrections
Remedy 15856	<p>Summary: Receiving Error APP-GHR-38364 Unable to fetch People error on canceling CAO act and unable to run Concurrent program.</p> <p>Resolution: Created a missing Insert records in the history area. Developed scripts to create public synonyms and grant execute privilege to US Federal HR Manager for the concurrent manager process "Create missing insert records in history".</p> <p>Note: If the error, "Unable to fetch People record", is encountered when attempting to cancel a CAO transaction at the gainer that was created prior to patch 52.9, have the HR manager run the "Create missing insert records in history" with the SSAN of the record in error, then complete the cancellation action.</p>	Navy	CAO
Remedy 16098	<p>Summary: Incorrect Error count on the RECON Statistical Recap Report.</p> <p>Resolution: User identified four separate problems:</p> <p>Problem1. Incorrect count of data differences on Recon Summary report. Corrected where there were Items removed from the report (10.7 version) that were still being evaluated and included in the total number of data differences. Also modified the civilian pay report package to correctly calculate total number of data differences.</p> <p>Problem2. Field on Recon Summary report "SSAN on Pay / Not on Pers:" stated 15 but actually were 14. The report that listed the 14 names on payroll not on personnel was using a different where clause than used in the Recon Summary Report. Modified the payre02 report to use the same 'Where Clause' as on the Recon reports. Also modified report payre01 to use the same 'Where Clause' as on the Recon reports.</p> <p>Problem3. Recon Summary report shows two employees with Duty station mismatch, although none were printed on the individual detail reports. Code was missing to print an individual detail report (payre03) when ONLY the duty station was mismatched. Modified the report payre03 to correctly print a page when only a mismatch occurred for duty station.</p>	DeCA	Pay Recon

	<p>Problem4. Recon Individual report duty station was mismatched but no asterisk was printed. Asterisk is print on duty station mismatches only if personnel or payroll duty station is 25 and there is a mismatch.</p>		
Remedy 16109	<p>Summary: GM WGI for Special Pay Table 0290 is miscalculating the salary. Resolution: Deleted Pay table '0290' values for Pay plan 'GS' and step or rate 11 and 12 to clear the miscalculation problem.</p>	AF	Pay
Remedy 16114	<p>Summary: Obligated Area is not completely spaced out upon input of NOA 713/702. Resolution: Added Code to de-obligate the Position's obligated area for 702 (Permanent Promotion) actions following a 703 (Temporary promotion NTE) action.</p>	DeCA	Promotions

Remedy 16133	<p>Summary: This is a script that has been created to remove the DDFs for Type of employment is not updating when 473 LWOP US is processed.</p> <p>Resolution: This remedy was a part of Patch 52.9 that was identified as a partial fix. These are the data scripts portion that was not included in the previous patch. Script associated with PR16133 and is in two parts. First part, will delete invalid PAR Extra Info DDFs for NOA Codes "471", "472" and "473" that were created prior to code change. Second part, fixes employee records in "Leave Without Pay Mil" status (NOAC 473) and their Type of Employment and Duty Status are incorrect. If employee meets conditions Type of Employment will be update to an "F" and the Duty Status will updated to "20". NOTE: Duty Status will not be updated if a subsequent action, after being placed in NON_PAY_DUTY_STATUS, changed the Duty Status.</p> <p>Process log program name for part I: PR16133_DEL_PAR_DDF</p> <p>Process log program name for part II: PR16133_FIX_EMPLOYEE</p>	DFAS	RPA/52
Remedy 16192	<p>Summary: Blocks 40 - 44 are blank on NPA on NOA 881(FEGLI Change) from IVRS.</p> <p>Resolution: Modified the IVRS package to add a call for moving generic information to populate block 40-44. Modified the FEGLI SF52 procedure in the IVRS package to populate the SF50 Approving Official's Full Name in the GHR PA Requests table. The approving official work title in block 50 will keep the same value as 'Designated Approving Authority'.</p>	Army	NPA/50
Remedy 16209	<p>Summary: Suspense Action Report in CSU lists employees beyond criteria.</p> <p>Resolution: Added code to format triggers to switch the display to 'off' if the NTE dates are out of parameter range.</p>	AF	CSU
Remedy 16251	<p>Summary: Unable to Cancel CAO Request Form.</p> <p>Resolution: Added new code and modified existing code to suite the new architecture and to take care of the identified problems. Developed interface that replaces the existing CAO/Transfer interface. Note: Part of CAO Re-Architecture.</p>	NGB	CAO
Remedy 16252	<p>Summary: Civilian Type Blanking Out on NOA Codes (292/702/703/769) in REG15.</p> <p>Resolution: Modified the procedure to flow 'GBB' for NGAR when Ctype is updated through people screen. Created script to reassign blanked out CType values for NGAR TECH employees at REG15 and CMIS. Script will flow 'GBB' to payroll using the effective date of the NOA that resulted in blank CTypes.</p>	NGB	RPA/52

Remedy 16298	<p>Summary: Processing an action on a Record with a blank Location Code results in error 40735.</p> <p>Resolution: Modified procedure to Check for the NULL location in the Foreign Allowance Pay Elements.</p>	Army	RPA/52
Remedy 16303	<p>Summary: JPAS SSN change file not reporting both SSNs.</p> <p>Resolution: Added code that allows insertion of data into the table for the JPAS SSN only when the SSN/Employee id coming from the PAR and Permanent Storage is not null. Also, added code that allows JPAS SSN changes to be generated for DOD/Fed Corrections.</p>	CPMS	JPAS
Remedy 16306	<p>Summary: Unable to terminate TSP contributions (Error related to Date Track).</p> <p>Resolution: New code was added to the TSP process to automatically end date TSP Catch Up Contributions as of effective date when TSP was stopped/terminated. However, if user manually end dates TSP Catch Up Contributions and then stops/terminates TSP an error will result when the call to end date the previously end dated TSP Catch Up Contributions is invoked. Changed code to bypass call to end date TSP Catch Up Contributions if element was manually end dated before TSP was stopped/terminated.</p>	Navy	Benefits and Entitlements
Remedy 16309	<p>Summary: Unable to process NOA 871- Exemplary Performance Award action.</p> <p>Resolution: Modified the procedure when checking the prior step or rate to allow user to process NOA 871.</p>	AF	Awards
Remedy 16328	<p>Summary: The message text for message "GHR_38847_NO_SEP_WITH_FUTR" is missing.</p> <p>Resolution: The message text has now been placed in the system.</p>	AF	RPA/52
Remedy 16366	<p>Summary: SF-50 produced even when it was suppressed in RPAs (DOD002/NOA894).</p> <p>Resolution: The following modifications were made to the procedure. Added code to get the PAR values to update the PAR DDF instead of default values. Added code to suppress the SF50 NPA if the SF50_OUTPUT_FLAG is selected as "NO". Added code to suppress the flow to PARIS if the SF50_OUTPUT_FLAG is selected as "NO".</p>	AF	Corrections
Remedy 16456	<p>Summary: Tenure 1 employee shows twice in Round 2 processing.</p> <p>Resolution: Corrected the auto-bump feature in Round 2 processing. Error included showing the same person twice and not bumping the next tenure level person correctly within the competitive level.</p>	AF	Auto RIF

TD 8119	<p>Summary: Occupied Positions with past end date were eliminated upon conversion.</p> <p>Resolution: Test Director Ticket has been previously closed. NOA 352 has been corrected to process to prevent the position hiring status from being changed to 'Eliminated'.</p> <p>TAR 2890332.996, Bug 2835138</p>	DoDEA	Positions
Remedy 14091	<p>Summary: Users cannot remove end-dates from positions.</p> <p>Resolution: Users are now able to Delete the Position where the Hiring Status was set to 'Eliminated'. 'Deleting' the Hiring Status of Eliminated will remove the end date and change the Hiring Status from 'Eliminated' to 'Active'. Deleting the 'Eliminated' position date track row automatically removes the Position End Date and returns the Position to its previous hiring status (usually 'Active'). Without that business rule, the US Federal employs the existing Position form Date Tracking functionality. If users wish to re-Activate a position, the Date Track Update functionality must be employed. Users may not simply change the Hiring Status from 'Eliminated' to 'Active'. Therefore, if users wish to re-Activate a Position, the following 'Delete' steps must be performed.</p> <ol style="list-style-type: none"> a. Users must locate the Date on which the Position was 'Eliminated'. This can be done by viewing the Date Track History. b. Users must then Date Track to a date at least one day prior to the Date on which the Position was 'Eliminated'. c. User must then click on the Delete (red 'X') icon, or select Edit' from the menu, and then select 'Delete'. d. Then, the user will be prompted with 'Next', 'All', or 'Purge', then choose 'Next'. Users may select 'All' but that would update the additional future records that the user may not intend to update; thus it is recommended that users select 'Next'. e. Next, the user must Save the Position. Once the user re-queries the position, the End Date will be removed, and the Hiring Status changed to 'Active'. <p>TAR 3034123.999, Bug 2983738</p>	Army	Positions

Remedy 14466	<p>Summary: Separation error APP-GHR-38673 after cancellation of 3XX action.</p> <p>Resolution: During Cancellation processing, if the position is in a Hiring Status other than 'Active', the record that set the position to the new status will be deleted during the update process. This ensures Cancellations to Mass Transfer Out (NOAC 352) will return the person to a position that has a Hiring Status of 'Active' only.</p> <p>TAR 3539249.995, Bug 3342994</p>	DLA	Separations
Remedy 15123	<p>Summary: Cannot cancel actions with effective date after separation action.</p> <p>Resolution: During Cancellation processing, if the position is in a Hiring Status other than 'Active', the record that set the position to the new status will be deleted during the update process. This ensures Cancellations to Mass Transfer Out (NOAC 352) will return the person to a position that has a Hiring Status of 'Active' only.</p> <p>TAR 3431025.996, Bugs 3263109, 3263096</p>	Navy	Cancellations
