

PATCH 50.8

Scheduled to be released to the field, Sunday, September 07, at 9:00 A.M. CDT

Database and client load changes.

REPAIRS

PROBLEM REPORT NUMBER	REPAIR	Initiated By	Critical Function
PR 9208	Summary: NOA 894 for Availability Pay, PRD 'K' and 'V' did not process. Resolution: Added other pay to calculation for total salary in necessary areas. This will allow for correct calculation of total salary and bypass the ORA-20001 error.	CPMS	Pay
PR 9336	Summary: NOA 471 setting assignment status incorrectly. Resolution: Added another user status check to obtain the Assignment status for Furlough.	CPMS	Other
PR 9337	Summary: The Library for CIVDRVR has now become too complex for normal updates. Resolution: The CIVDRVR has been split up for better maintenance and performance.	LMSI	Other
Remedy 13802	Summary: FTP of Training History Mass Updates, the process rejects. Resolution: Fixed problem with date conversions in the Training History Package procedure. Nothing wrong with flat file provided, it failed for people who had existing data in "Class Graduation Date" field.	AF	Training
Remedy 13803	Summary: Error message when updating the Post Allowance entries. Resolution: Added logic to Post Differential amount Element to prevent error message (CIV_CNTRL_PAYROLL_500_9).	AF	Benefits and Allowances
Remedy 13814	Summary: HR tables are not refreshing in CSU (fields DLEI & Duty Phone). Resolution: Changed code to get the work telephone from the per phones table. Changed NAME in WGI for Last Increase Date and Last Equivalent Increase.	AF	CSU
Remedy 13815	Summary: Invalid error message when processing AGR Actions. Resolution: A script was created to establish the Information Type CIVDOD_AGR_CORR_DOB to clear the problems when processing AGR personnel actions.	NGB	Separations

Remedy 13819	<p>Summary: NGB is unable to correct AGR DOB under AGR Manager's role.</p> <p>Resolution: These scripts will create the DDF and AGR information type for CIVDOD_AGR_CORR_DOB.</p>	NGB	Roles and Responsibilities
Remedy 13873	<p>Summary: DMHRSI Interface File is blank when it tries to FTP.</p> <p>Resolution: Added code to zap the interface table before the DMHR extract process.</p>	LMSI	UNIX
Remedy 13875	<p>Summary: Unclear process log error for Suspense WGI calls Program.</p> <p>Resolution: The error message was expanded to clarify what the problem is. You will need to test if the new error message gets you the information necessary to find the error. In the cases that I research, I found that the person was being promoted to a step that is invalid. The user can not see this because when they check the person it still has a valid step. The spec of the package was unchanged but renamed to match the body.</p>	DoDEA	Other
Remedy 13883	<p>Summary: PAD Performance for Air Force (Reg-03) is too slow.</p> <p>Resolution: Modified PAD code to avoid "Snapshot too Old" Errors. Added an update SIT to custom API code to allow CMIS updates of SIT changes without inserting history records for PAD and NAF Reverse SIT calls. Added ID_FLEX_NUM functions to PAD and NAF Reverse packages to allow custom API checks for PAD and NAFREV SIT Id Flex Numbers</p>	CPMS	Payroll Reverse PAD
Remedy 13909	<p>Summary: CAO and InterAgency Transfer notifications not received by Gaining GB.</p> <p>Resolution: The column GAINING_PERSON_ID was added to CIVDOD_INT_CAO_REQUEST Table.</p>	DeCA	CAO
Remedy 13942	<p>Summary: Agency name in block 46 spelled wrong.</p> <p>Resolution: This script corrects the spelling of 'Govenors' to 'Governors' in the Lookup Values Table for Lookup Type of 'GHR_US_AGENCY_CODE' and Lookup Code of 'IB00'.</p>	IBB	NPA/SF50 Documentation
Remedy 13971	<p>Summary: Improper SCD date format (Mass Preview's) and problem entering NTE date.</p> <p>Resolution: Fixed date format (DD-MON-YYYY) for SCD data in the preview for Mass Actions on the Non-Pay Status screen.</p> <p>Note: The other error reported in the PR about the NTE date not being enterable was fixed in a previous patch.</p>	CPMS	UNIX

Remedy 14016	Summary: Invalid Mismatch for Position Occupied, Tenure and Appointment Type. Resolution: Modified procedure and added extra parenthesis to evaluate 'OR' and 'AND' conditions properly.	DoDEA	5XX Conversions
Remedy 14068	Summary: PAD Files erring at REG26 (AFRH). Resolution: This script will update erroneous Employee Leave Info & Earnings And Pay to match the corresponding data at all other regions.	AFRH	Payroll Reverse PAD
Remedy 14094	Summary: Duplicate entry received after updating education. Remedy: Creation of Education sit causes duplicate to be created. Changed package to prevent the duplicate creation of Education Sit	CPMS	Other
Remedy 14337	Summary: Reassignment Mandatory Edit problem. Resolution: Updated Date Last Promotion to be a non required field for context 'CIVDOD_PAR_5/7/9_GEN_OPT' of Descriptive Flex Field 'Extra PA Request Information'.	Army	Promotions
Remedy 14342	Summary: Report RRBN - Incorrect date format for Recruit Bonus Agreement Date. Resolution: Set agreement date formats for Recruitment and Relocation bonuses to DD-MON-YYYY.	Navy	Reports
Remedy 14395	Summary: Can not delete RPA by RPA Number. Cannot delete Correction RPA. Resolution: Revised concurrent process 'Delete Uncompleted RPA' so that it will allow a more dynamic search of the RPA to delete. Changed code so that a RPA correction created in 10.7 can be deleted. Note: User documentation will be provided separately.	CPMS	RPA/SF52
Remedy 14451	Summary: NGB REG15 is running very slow and cannot process Personnel actions. Resolution: Fixed query in after parameter form trigger to increase performance of report. Report ran for 4 min 30 sec before and in 10 seconds after the tuning.	NGB	System Fundamentals
CRT 02-402-NVY	Summary: Changed Navy unique NOA Codes 1913 to 913, 1915 to 915, 1969 to 969 and 1992 to 992. Attached LAC and Remarks to the new NOA Codes. Old NOA Codes were end dated and same functionality maintained with replacement NOA Codes.	Navy	Remarks

SCR 02-3281-AFX	Summary: Changed the refresh process to generate two reports one for the summary information and the other for the detail error information. The base refresh process has been changed to check if the refresh at the region has been completed before the base refresh starts. The checking at the region for completion is done for nine times every 30 minutes.	AF	CSU
SCR 03-5306-DOD	Summary: Populated Citizenship and Race or National Origin data for AGR records. Added extract as of date column to regional report data for storing the date/time the staging was completed. Added assignment status column to employee table for storing the user status field from HR. Added new columns to NAF_EMPLOYEE table and secure view to store data for Non Appropriated Fund employees. Added new table for storing certificate licenses cost information. Added new secured view for the certification licenses cost table. Added effective start date and effective end date to within grade increase table and secure view and populated with data from pay element entries table. Changed the script that generates the CMIS secured views so that the CMIS secured view columns match the columns in the regional secured views. Changed the LN Awards report to have filter options and for the report to filter data based on selected criteria. Changed the Personnel/Position Roster to display PAS code for AF employees and Unit Id Code for other employees. Changed the caption for PAS on the report header to read PAS/UIC.	DoD	Other

CRT 03-7752-DoD	Summary: Created new value set for Social Security Number to be attached to the 'Security Clearance Change Report' for JPAS. Modified the concurrent program 'Security Clearance Change Report' format to 'Postscript'. Added 5 parameters. Added the report to 'CIVDOD REPORTS','CIVDOD VSB REPORTS', CIVDOD SYSADM HR MANAGER','US FEDERAL HR MANAGER' responsibilities. Modified the Lookup Codes and Meanings for the Lookup Type 'GHR_US_PERS_SEC_CLEAR'. Modified the Lookup Codes and Meanings for the Lookup Type 'GHR_US_SEC_INVEST_BASIS'. Modified the 'GHR_US_PERS_SEC_CLEAR' and 'GHR_US_SEC_INVEST_BASIS' value sets to use table validation and entered the where clause to look at the Lookup Types. Changed value set for 'Clearance Eligibility' for 'Navy Security Information' Person Extra Info DDF. Changed value sets for 'Security Appointment Information' for two fields in PA Request Extra Info DDF. Modified date format for 'Security Eligibility Date' and 'Security Investigation Date' to be compatible with 11i. Bypassing	CPMS	Other
CRT 03-8175-DOD	Summary: A script has been developed to generate Army Civilian Type and flow to payroll via NOA Code GBB. For NGAR Tech employees.	NGB	Other
CRT 03-8634-DDE	Summary: Updated GHR_PA_REQUESTS table with LAC of 'ZLM' and description 'DOD DIR 1400.13 4.33' for DODEA region only for WGI actions effective '01-AUG-03' having 'TP' pay plans.	DoDEA	Remarks
NAF Only			
PR 8221	Summary: AF NAF Health Insurance expiration date not spacing out. Resolution: Changed auto-population rules for Group Health Insurance and Group Life Insurance (N059,N074,N073) on extra information and on the form	AF NAF	Benefits/Entitlements
SCR 03-6327-DoD	Summary: Created a script that will delete the exclusion of menu 'PER_F4_HRMS_ORG' for the following responsibilities: CIVDOD NAF Personnelist (Army) and CIVDOD NAF Personnelist (AF). It will also delete the exclusion of the menu for any secure views that were created using either of these responsibilities. Changed the process 'Synchronize responsibilities and DDF's' so that it will synchronize the menu and function exclusions specified by the template responsibility to the secure view. This process should be run after every patch.	NAF	Secure Views

	LN Only		
Remedy 13956	<p>Summary: Print problems with Japan USFJ Form 11EJ.</p> <p>Resolution: Added code to auto-populate the Language Allowance Supplemental pay field, modified the report to correct problems and updated JP_FROM_SIDE_PAY DDF to only show desired columns in a certain order.</p> <p>Partial Release: Additional Formatting issues are still being worked.</p>	Navy LN Japan	NPA/SF50 Documentation
Remedy 14264	<p>Summary: Change in Position Number Flex Field missing from Extra Info LN.</p> <p>Resolution: Corrected the following:</p> <ol style="list-style-type: none"> 1. Added the missing Information Type 'LN Change Position Number' under the Extra Information on the RPA form for LN (All) Responsibility. Changed Value Set to 'CIVDOD_FREE_TEXT_15' so that the User may be able to enter any value for the Position Number. 2. Modified API call to return a value for an IN/OUT parameter instead of passing a value to update the Change in Position Description Number only in Position Details (Define Position and People>Assignment). 3. Added code to reflect the 'To' Position Number' in the NPA when a Position Number Changes. 	LN	RPA/SF52
SCR 03-6771-DoD	<p>Summary: Added column 'Extended/In-Between Step (JA)' to RPA Extra Info Type 'LN Pay and Hours Information'. The size was set to a length of 7. Changed column 'LN_EXT_STEP' in Person Extra Info Type 'Japan Unique Information' so that the left prompt is 'Extended/In-Between Step (JA)'. Also changed the size to 7. Changed the RPA code so that if a pre-existing value exists, it will auto-populate the new column if the position is in Japan. Changed the RPA code so the new column will populate column 'Extended/In-Between Step (JA)' in Person Extra Info Type 'Japan Unique Information' when the RPA is completed and if the country is Japan. Also allowed the user to NULL out existing values in the RPA. If a NULL value is entered, then a NULL value will be inserted/updated into the Person Extra Info Type at the time the RPA is completed. Changed the RPA code so that corrections and cancellations will follow the same rules as listed above. Changed the USFJ Form 11EJ report so that the previous value of the extended step would print on the From Side of the position. If there is no previous value, then the value from block 11 of the RPA will be printed. Also change the report so that the new value for the extended step</p>	LN Japan	Pay

	will print on the to side of the position. If there is no new value, then the value form block 19 of the RPA will be printed.
