Changes:

Date	Version	Section	Change Reference
25 Aug 07	5.0	Paragraph 6a and 6b	Updated list of values for NSPS Spiral and Pre-NSPS Spiral Indicators to include new values added for Spiral 2.2
25 Aug 07	5.0	Paragraph 6g	Added a note indicating that Overtime Computation Indicator will remain blank when position type equals 'TECH' and FLSA equals 'Exempt'
25 Aug 07	5.0	Paragraph 6i	Updated LMS Indicator list of values for T0491A, TD200A, TD201A and TE025A to reflect the authorized targeted local market supplements authorized through Spiral 2 conversions
25 Aug 07	5.0	Paragraph 7, Steps to Follow, Step 15	Added that FLSA Category will auto-populate to a value "E" for TECH positions
25 Aug 07	5.0	Appendix A	Updated list to reflect those targeted local market supplements authorized through Spiral 2.1 and 2.2 conversions (T0491A, TD200A, TD217A, TE025A)
13 Nov 07	5.0	Appendix A	Updated list to reflect additional targeted local market supplements to be authorized for Spiral 2 conversions (T983PA and TD092A)

1. BACKGROUND. The National Security Personnel System (NSPS) operates under the authority established by the National Defense Authorization Act for Fiscal Year 2004, Pub. Law 108-136. This Act waived portions of Title 5 and the Code of Federal Regulations (CFR), including the classification system. The NSPS classification system recognizes ranges of difficulty in various organizational and work situations, allows for natural progression from entry/developmental to journey and expert levels of work, and provides broad-banded pay that offers employees greater advancement opportunities. Career Groups, Pay Schedules, and Pay Bands replace the current General Schedule grade structure. Position Classification under NSPS is the assignment of a career group, pay schedule, pay band, occupational code, and title to a position. NSPS uses occupational codes similar to, but not always identical with, those established by OPM in the Title 5 classification system. All of these areas as well as their associated business rules and edits have changed in DCPDS to support the new functionality of “pay for performance”.

NSPS-specific data elements, list of values (LOVs), auto-population rules, new titling conventions, and re-defined occupational codes are at the core of the NSPS position design. This design also incorporates and/or modifies Descriptive Data Flexfields (DDFs), data elements, LOVs and other Position business rules and edits in accordance with NSPS implementing issuances. Addition or modification to other Position DDFs, data elements, LOVs and business rules as well as Component-unique Position requirements has been built into the position design process.

2. GENERAL INFORMATION

Career Groups (CG), Pay Schedules (PS), and Pay Bands (PB) replace the current General Schedule (GS) grade structure.

- a. There are currently four career groups (CG) established under NSPS. They are:
- Standard (STND)
 - Scientific and Engineering (S&E)
 - Medical (MED)
 - Investigative and Protective Services (I&P)
- b. Under each career group, multiple pay schedules (PS) have been established. Pay schedules are determined by the occupational code of the work performed. They are:
- Professional
 - Technical/Support
 - Supervisory/Manager

In DCPDS, they have been established with Pay Plans YA through YP.

PAY PLAN Y-				
	STND CG All Others	S&E CG 0400, 0800, 1300, 1500	MED CG 0600, 0700	I&P CG 0006, 0072, 0081, 0083, 0085, 1811, 1812
			G	K
Professional	A	D	H	L
Tech/Support	B	E	I	M
Supv/Mgr	C	F	J	N
SEEP	P			

Student Educational Employment Program (SEEP) is non-supervisory and classified to the “YP” Pay Schedule.

- c. Under each pay schedule, one or more pay bands (PB) have been established. In DCPDS, they have been established with Grades 01 through 04.

CAREER GROUPS (CG)	PAY SCHEDULES CLEARTEXT	PAY SCHEDULES (PS)	PAY BANDS (PB)
STND	Professional/Analytical	YA	01, 02, 03
	Technician/Support	YB	01, 02, 03

	Fire Protection	YL	01, 02, 03, 04
	Policy/Security Guard	YM	01, 02
	Supervisor/Manager	YN	01, 02, 03
Note 1: Pay Schedule YG and YJ (Pay Band 04) apply only to 0602 Physician and 0680 Dentist Occupational Codes			

- 3. ESTABLISHMENT OF NEW DDFS.** New DDFs have been established in the Position area to support changes necessary for NSPS. They are:
- a. US Federal Alternate HR System.** This DDF established a new data element that identifies what Personnel System Indicator the position is associated with.
 - b. NSPS Information.** This DDF established several new data elements that will identify the Pre-NSPS and NSPS Spiral Indicators, Local Org Title and NSPS Career Group associated with the NSPS position.
 - c. Payroll.** This DDF established three new data elements that will identify the appropriate aggregate pay limit; overtime computation and premium pay limits associated with the position and to flow that information on the Pay500 personnel transactions. NOA MSC Pay500 will generate if one of these data elements are updated on an encumbered position.
- 4. CHANGES TO EXISTING DDFS.** Some DDFs have been modified in the Position area to support changes necessary for NSPS. They are:
- a. US Federal Valid Grade.** Two new data elements were added to the DDF for the Local Market Supplement Indicator and LMS Specialty Codes. These values will be used to determine the appropriate Local Market Supplement percentage to be used in pay calculation.

5. CHANGES TO EXISTING DATA ELEMENTS

a. Pay Plan (Pay Schedules)

- The Occupational Code of the work performed will determine Pay Schedule.
- Will auto-populate to default values when building NSPS positions. User can over-write the default values.
- NSPS Pay Schedules (PS) will be documented in the Pay Plan portion of Valid Grade.
- Codes YA through YP have been established for the NSPS Pay Schedules (excluding YO).

b. Occupational Codes

- The cleartext value for the occupational code has changed under NSPS (i.e. 0080.Security Administration is now 0080.Security Specialist (NSPS)).
- The List of Values (LOV) will contain two values – one for NSPS and one for non-NSPS positions. The value for NSPS will reflect NSPS in the cleartext name.
- Five new Occupational Codes have been established under NSPS. They are:
 - 1002 – Arts and Info Support
 - 1108 – Business Support
 - 1703 – Education Specialist
 - 2203 – Computer Operator
 - 2204 – Computer Technician

Note: A new lookup table called CIVDOD_OCC_CODE_XWALK has been established to identify exceptions for occupation codes that have not been approved by OPM. These exceptions will be cross-walked for reporting purposes of the CPDF/EHRI reports. They will also be cross-walked on the Pay500 personnel transaction in position 81-84.

Code	Meaning	Clear Text	Start Date
1002	1002	1001	01-JAN-2006
1108	1108	1101	01-JAN-2006
1703	1703	1702	01-JAN-2006
2203	2203	0332	01-JAN-2006
2204	2204	0335	01-JAN-2006

Note: New codes for these new occupational codes have been added to the following lookup tables: CIVDOD_CAR_FLD_OCC_SERIES, CIVDOD_CAR_FLD_OCC_SERIES_EDIT and CIVDOD_AR_4_OCCUPATIONAL_EDITS.

c. Grade (Pay Bands)

- NSPS Pay Bands (PB) will be documented in the Grade portion of Valid Grade
- For Pay Schedule YB occupations, PB 03 is authorized for the following occupation codes only:
 - 0025 – Park Ranger
 - 0318 – Secretary
 - 1016 – Museum Tech
 - 1060 – Photographer
 - 1152 – Production Controller
 - 1421 – Archives Tech
 - 1702 – Education & Training Tech
 - 2185 – Flight Engr, Aerial Refuel Tech, & Aircraft Loadmaster
- For Pay Schedule YE occupations, PB 04 is authorized for the following occupation codes only:
 - 0802 – Engineering Tech
 - 0856 – Electronic Tech
- For Pay Schedule YJ occupations, PB 04 is authorized for the following occupation codes only:
 - 0602 – Supv Physician
 - 0680 – Supv Dentist

d. Occupation Category Code (PATCOB)

- Most occupational codes will have a one-to-one relationship to an Occupation Category Code (PATCOB); however, there are some occupational codes that have exceptions based on the GS-related grade. For example, the Guide to Personnel Data Standard specifies that for occupational code 0025 and the grade is between 01 and 04, the PATCOB would be T (Technical), and if grade is between 05 and 18, the PATCOB would be A (Administrative).
- Default values for the Occupation Category Code have been established for those occupational codes that have multiple PATCOB values. These default values have been added to the CIVDOD_PATCOB_DEMO_EXCEPTIONS LOV. If the occupational code and NSPS pay schedule combination does not exist on that LOV, auto-population of Occupation Category Code will be based upon the values in the CIVDOD-PATCOB LOV.

6. ESTABLISHMENT OF NEW DATA ELEMENTS

a. NSPS Spiral Indicator

- Will be populated to reflect what spiral the position was converted into NSPS during the NSPS Mass Conversion process.
- List of Values (LOV) has been established with the following values:

Code	Clear Text	Code	Clear Text
1.1	Spiral 1.1	2.1	Spiral 2.1
1.2	Spiral 1.2	21A	Spiral 2.1A

b. Pre-NSPS Spiral Indicator

- To be used to identify the NSPS Spiral in which the position will be converted into NSPS
- Will be used in the NSPS Mass Conversion process to identify records that will be converted into NSPS
- List of Values (LOV) has been established with the following values:

Code	Clear Text	Code	Clear Text
1.1	Spiral 1.1	2.1	Spiral 2.1

Code	Clear Text	Code	Clear Text
1.2	Spiral 1.2	21A	Spiral 2.1A

c. Personnel System Indicator

- Identifies the Personnel System Indicator associated with the position.
- Will auto-populate to value “01” during the NSPS Mass Conversion process.
- Auto-populates with a value of “01” when a user builds a position using the “**Build NSPS Position**” forms.
- List of Values (LOV) has been established with the following values:

Code	Clear Text
00	Other
01	NSPS

- NSPS positions must be coded with value “01”.

d. NSPS Local Org Title

- Will auto-populate with current Position Title during the NSPS Mass Conversion process.

- To be used by Components, at their discretion, to capture and track local functional or organizational titling information.
- Up to 60 characters may be input.
- This data field is not to be mistaken for the Position Working Title, under US Federal Position Group 1.

e. NSPS Career Group

- Reflects the NSPS Career Group for the occupational code.
- Will auto-populate with appropriate value when a user builds a position, using the “Built NSPS Position” forms.
- List of Values (LOV) has been established with the following values:

Code	Cleartext
STND	Standard Group
S&E	Scientific & Engineering
MED	Medical
I&P	Investigative & Protective

- NSPS positions must contain a valid code.

f. Aggregate Limit Indicator

- Identifies the aggregate pay limit for the NSPS position (**Note:** When payroll receives null value on Pay500, Aggregate Limits will follow current logic of Executive Level I.).
- This data element should only be updated if Personnel System Indicator equals 01.
- List of Values (LOV) has been established with the following values:

Code	Clear Text
V	Vice President Limit
P	President Limit

- Will auto-populate to “P” for 0602 Physician and 0680 Dentist occupational codes; cannot be updated for other NSPS occupational codes.

g. Overtime Computation Indicator

- Identifies the type of Overtime Computation associated with the NSPS Position when FLSA equals E (Exempt) (**Note:** When payroll receives null value on Pay500, current logic for overtime computation will be followed).
- This data element should only be updated if Personnel System Indicator equals 01.
- List of Values (LOV) has been established with the following value:

Code	Clear Text
N	No Limitation-Full 1-1/2 Times Hourly Rate

- Will auto-populate to “N” if FLSA equals E (Exempt) and Valid Grade **is not equal** to YA-03, YD-03, YG-02, YG-03, YH-03, YK-03, YL-04, YC-02, YC-03, YF-02, YF-03, YJ-02, YJ-03, YJ-04, YN-02, YN-03 **And** NSPS Personnel System Indicator equals 01. (**Note:** This data element will be blank for position type TECH regardless of pay schedule and pay band.)

h. Premium Pay Limit Indicator

- List of Values (LOV) has been established with the following values:

Code	Clear Text
N	No Limitation
1	Executive Level I
2	Executive Level II
3	Executive Level III
4	Executive Level IV
5	Executive Level V
C	CENTCOM
V	Vice President
P	President

- When the value in Premium Pay Limit Indicator is blank (or null), payroll will follow current logic.
- There is no auto-population rules established for this data element.
- Is not applicable for FWS records.

i. LMS Indicator Code

- Identifies whether the position is entitled to a Standard or Targeted Local Market Supplement.
- List of Values (LOV) has been established – *Note: These are the authorized values for Spiral 1.1, Spiral 1.2, 1.3, 2.1 and 2.2 positions*

- For 0602 Physician and 0680 Dentist positions, LMS Indicator will be auto-populated to S00001; for all other occupational codes, LMS Indicator will be auto-populated to S00000. Users may override the default values, as necessary.

- DCPDS will use LMS Indicator code value when calculating Local Market Supplement (LMS) percentages.
- Some LMS Indicator values requires user to also enter a value into LMS Specialty Code.
- Should not be coded for non-NSPS positions except for 0602 Physician and 0680 Dentist positions. Those occupational codes must reflect a valid value in the position before the NSPS Mass Conversion is executed.
- See Appendix A for the associated LMS Percentages for each LMS Indicator code.

j. LMS Specialty Code

- LMS Specialty Code will be used to identify those positions in certain occupational codes that may be entitled to a Targeted Local Market Supplement.
- List of Values (LOV) has been established:

Code	Clartext	Code	Clartext
008	Non-Radar Approach Control	043	Occupational Medicine
011	Rated as Pilot & Occupying a Flying Position	044	Oncology

Parentheticals, and Pay Bands, and the establishment of (a few) NSPS-specific data elements.

Three data elements will drive the auto-population rules: Personnel System Indicator, Supervisory Status and Occupational Code (re-defined).

“**Authorized**” position titles have been established for most occupational codes and will be **auto-populated**. Some occupations have more than one “authorized” title – user will need to select one from the List of Values (e.g. 1082-EDITOR, 1082-WRITER, and 1082-WRITER-EDITOR). For approximately 20 occupational codes (e.g. XX01s, 0303, 1002, 1108, 1603, 1802 and 2150), user will need to “**construct**” the position title.

Under NSPS, only positions with a Supervisory Status equal to 2 are considered to be supervisory.

All supervisory positions will be assigned the appropriate authorized title preceded by the word “**SUPV**”, with the exception of the 0081-FIRE CHIEF.

For the following occupational codes, **only supervisory titles** are authorized: **0081-YL-FIRE CHIEF**, **0313-YC-SUPV WORK UNIT TECH**, **0505-YC-SUPV FINANCIAL MANGEMENT SPEC** and **0670-YC-SUPV HEALTH SYS ADMIN**.

For the following occupational codes, **only non-supervisory titles** are authorized: **XX99-STUDENT TRAINEE**, **0090-VISITOR GUIDE**, **0319-YB-CLOSED MICROPHONE REPORTR**, and **0322-YB-TYPIST**

Student Educational Employment Program (**SEEP**) positions are NON-SUPERVISORY.

- Career Intern (**SCEP**'s) Position Titles will auto-populate to “STUDENT TRAINEE”, these are the XX99 Occupational Codes, Pay Schedule “YP”.
- At least one parenthetical is required for the SCEP XX99 Occupational Codes. User **may** select parentheticals from the LOV or construct appropriate parentheticals, i.e., 0299-STUDENT TRAINEE (HUMAN RESOURCES).
- Only Pay Band (PB) **01** is authorized and it will be auto-populated.
- Student Temporary Employment Program (**STEP**'s) Position Titles are determined by the occupational code of the work performed and may contain up to two parentheticals, i.e., 1411-LIBRARY TECH (INFO SYS/CUSTSPT).

Use of optional parenthetical titles is authorized to supplement basic titles.

A “short” LOV of “recommended” parentheticals is provided for certain occupations; however, an “expanded” LOV is available if the user decides to see all “recommended” parentheticals, irrespective of the occupational code.

Users may select one or two of the “recommended” parentheticals for a position. No more than two optional parentheticals may be selected (from LOV) or constructed for a position.

Parentheticals may be constructed using any combination listed below:

Parenthetical 1	Parenthetical 2
Blank	Blank
Construct	Blank
Construct	Construct
Construct	LOV
LOV	Blank
LOV	LOV
LOV	Construct

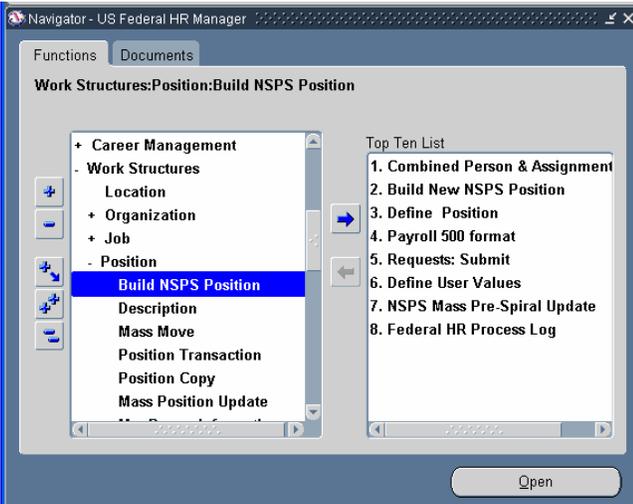

Note: For Occupational Code 2210, users must enter at least one parenthetical during the position build and can select “authorized” parentheticals from the LOV. Parenthetical 1 cannot be blank.

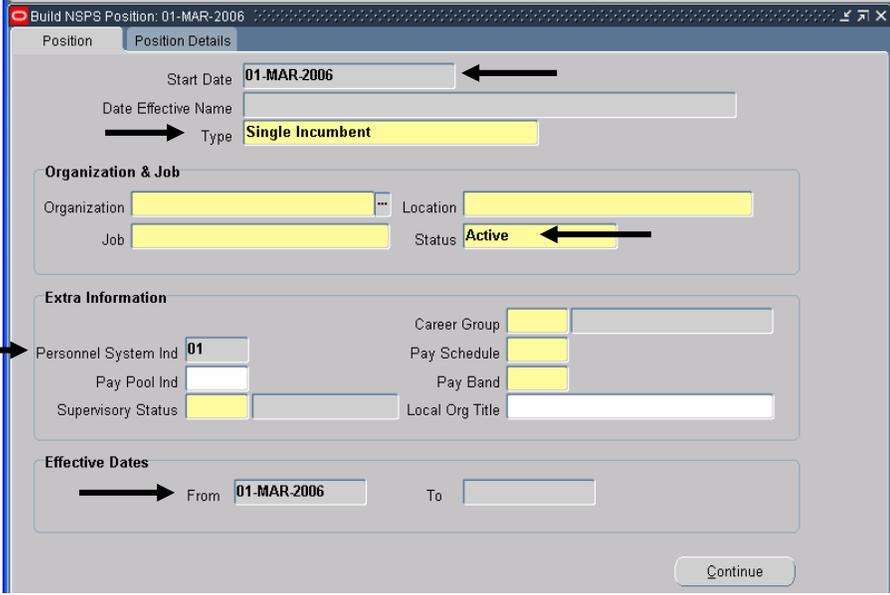

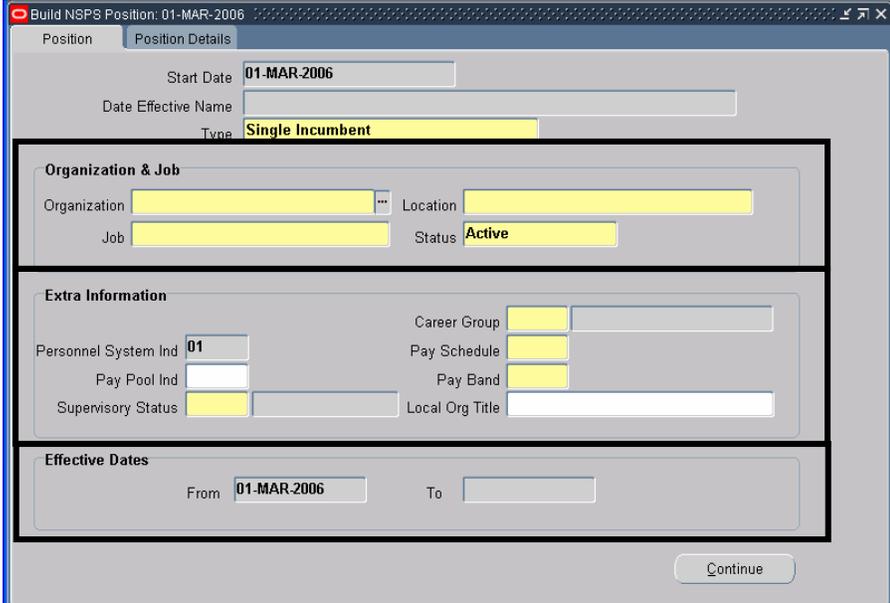

Most position and parenthetical titles (on LOV) have been **abbreviated** to meet coding constraints (the position title plus parentheticals cannot exceed 60 characters).

All position titles and parentheticals will be displayed in upper case.

Steps	Action
	
5a	<p>Under the <u>Position Name</u> region, the following 7 data elements are basically the same 5 segments in the main Position screen, except that for NSPS, Parenthetical 1 and Parenthetical 2 data fields are concatenated with Basic Title and will be stored in one segment (the same segment used today for “Position Title” in the main Position screen).</p> <ul style="list-style-type: none"> • Position Description Number – no change -- user should enter a Position number based on their numbering conventions • Title – change (for most occupational codes, this will auto-populate with prescribed Title; however, user must construct titles for approximately 20 Occupational Codes, (i.e., XX01, plus a few others); if the Position is Supervisory, the Basic Title will auto-populate with “SUPV”). <p> Note: TITLES and PARENTHETICALS are populated in upper case</p> <ul style="list-style-type: none"> • Parenthetical 1 – new (user has the option to select from LOV (if prescribed), leave it blank, or construct a new one) • Parenthetical 2 – new (user has the option to select from LOV (if prescribed), leave it blank, or construct a new one) • Expand Parenthetical LOV – new (by checking this block, the user will have access to the complete list of “prescribed” parentheticals)

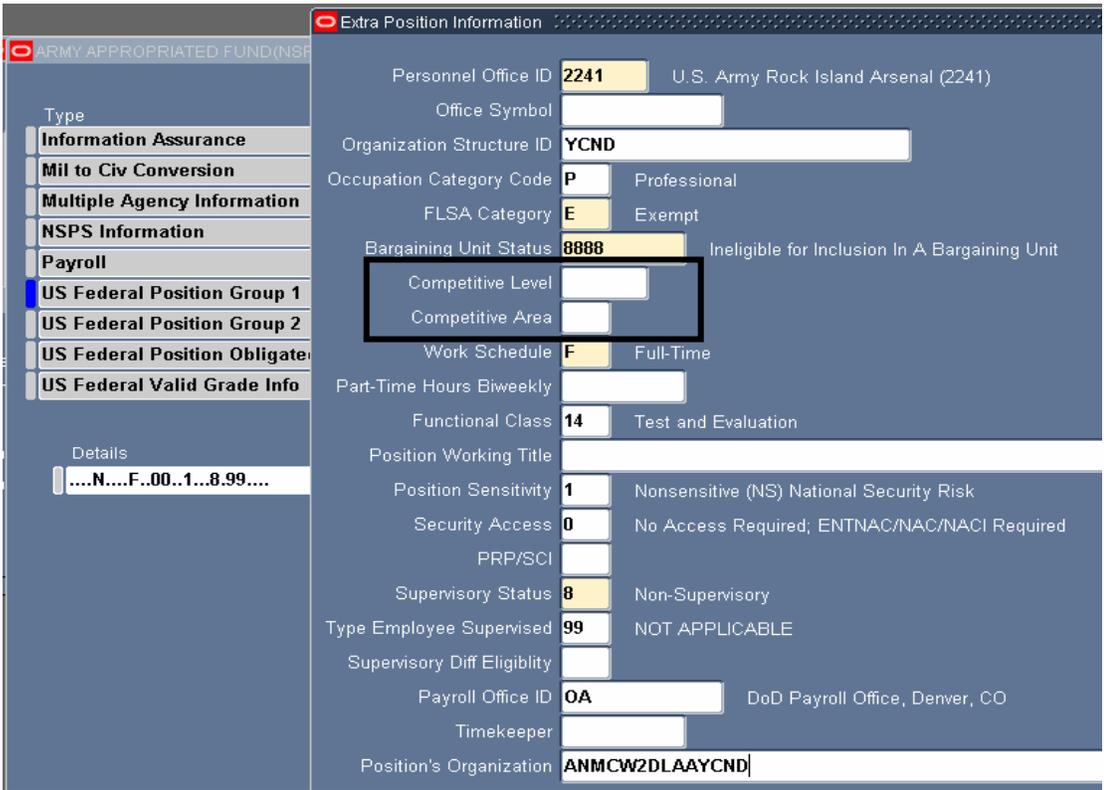

Steps	Action

Entry of the Servicing Office Id (SOID) results in the auto-population of the Vacancy Indicator to reflect Vacancy, Product Distr Instructions and the Report Distr Instructions. In addition, the Payroll System will default auto-populate to DCPS. • User must, even though they are not mandatory, finish the NSPS position build process by entering Servicing Agency, Region, Unit ID Code or PAS Code, and Mobility Indicator.
6	<p>Once all data has been captured on the Position Details “Input” screen, user needs to click on the SAVE icon. Once saved, Name will auto-populate with the data that mirrors the same type of Name information found in the regular Position Build form. The position’s new sequence number will also auto-populate.</p>
7	<p>To continue the Position build process through the regular Position Extra Information DDFs, before validating the position, click on Create Position button.</p>

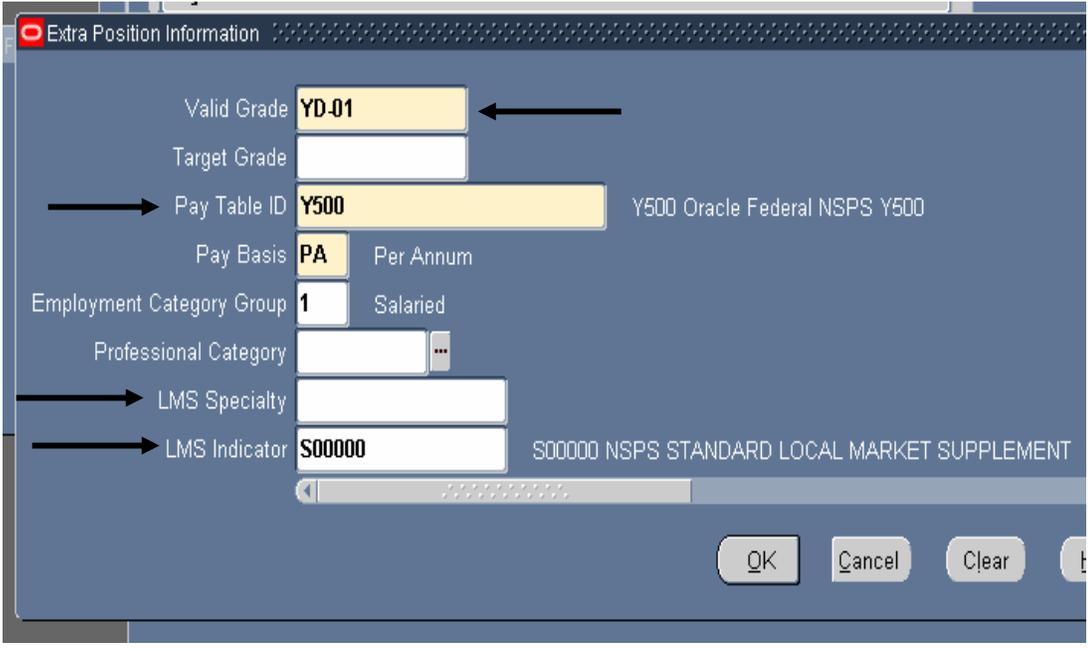

Steps	Action
	
8	<p>From the NSPS Create Position form, user is navigated to the Regular Position form to the Find Positions window. By pressing the Find button, user can access the main Position screen and continue the Position Build process.</p> 
9	<p>The information built through the new NSPS screen(s) is now shown on the Regular Position screen. The Additional Position Detail information (beer mug) has the same data as was built through the second tab on the NSPS Position.</p> <p> Note: Status reflects Invalid just as it does when the user is trying to build a new Regular position.</p>

15	<p>Under US Federal Position Group 1 DDF, data elements Competitive Level and Competitive Area are not required under NSPS. FLSA Category will auto-populate with a default value of N (Non-Exempt) except for TECH positions – FLSA category will auto-populate with a default value of E (Exempt). Work Schedule, Functional Class, Position Sensitivity, and Type Employee Supervised data elements will also auto-populate to default values. Users should ensure these data elements reflect the correct values before validating the position.</p> <p> Note: The FLSA value will impact the auto-population of the new data element Overtime Computation Indicator. Overtime Computation Indicator will remain blank for TECH positions, regardless of FLSA.</p> <p>User must complete the remaining build of data items from this screen to include the same type of input requirements found in the Regular position build process.</p>

Steps	Action
	
16	<p>Under US Federal Valid Grade Info DDF, Valid Grade (new Pay Schedule and Pay Band) will be populated from the “Build NSPS Position” input screen; the Pay Table ID will auto-populate with the default value of Y500; LMS Indicator will auto-populate with a default value of S00000 (if occupational code is not equals to 0602 Physician or 0680 Dentist) OR S00001 (if occupational code is equal to 0602 Physician or 0680 Dentist); and LMS Specialty will auto-populate with a default value of 049 if occupational code is equal to 0602 Physician or 0680 Dentist.</p> <p>If the position is entitled to a Targeted Local Market Supplement, user will need to override the LMS Indicator and/or LMS Specialty codes with the appropriate values.</p> <p>Note: See Appendix A for the LMS Indicator and Specialty Code values to be used.</p>

The values listed below reflect what has been authorized for Spiral 1.1, Spiral 1.2, Spiral 1.3, Spiral 2.1 and Spiral 2.2 populations. Once new Targeted Local Market Supplements are authorized, this list will be updated.)
