

PATCH 63.1.3

Scheduled to be released to the field November 1, 2006 at 18:00 CT

Contains Application Server modifications.

FIXES

TD/PR/CRT/SCR	FIX	Initiated By	Critical Function
TD 11289	Summary: NSPS Appraisal - Approved Rating Official Assessment for Interim Review Resolution: Corrected where the rating official's interim review assessment or closeout assessment was being cleared when rating official clicked the save button in either of these regions. This error occurred only after routing between the rating official and employee had occurred. This error only affected records that were updated between 29 Oct 06 and the date of this patch.
