Position Title: Acquisition Operations Specialist

Plan-Series-Grade: GS-1101-12/13

Organization: US Forces – Afghanistan, Operational Contract Support Integration Cell

Location: Afghanistan

Tour Length: 9-12 months

Clearance: SECRET

Report Date: Open Vacancy

Duties: Serves as an Acquisition Operations Specialist for the US Forces – Afghanistan (USFOR-A) Operational Contract Support Integration Cell (OCSIC). The OCSIC works in coordination with key stakeholders to execute contractor Integration and transition in USFOR-A, synchronized with operational requirements and retrograde activities. The OCSIC is organized into two Directorates, a Plans and Operations Directorate and a Program Management Directorate. The Plans and Operations Directorate ensures that contractor Integration/transition planning and execution is consistent with Resolute Support and USFOR-A planning, schedules, and objectives. The Plans and Operations Division also supervises OCSIC Regional Teams to support Regional Command planning and execution. The Program Management Directorate consists of a Logistics Status (LOGSTAT) Division and a Sector Management Division. The LOGSTAT Division defines data requirements, develops/utilizes business tools and authoritative data sources, and creates/maintains an OCS Common Operating Picture (COP). The Sector Management Division provides subject matter expertise in 10 contract mission areas: base support, communications support, construction, logistics/maintenance, property, security, training, translation services, transportation, and interagency support. The Program Management Division also manages the relationship with Contracting Activities that have contracts performing within USFOR-A.
